

SureDsolv™ T

ASPHALTENE SOLVENT

OVERVIEW

SureDsolv™ T is a highly polar organic solvent for the removal of asphaltenes. It is added to SureDsolv™ P to help break strong intermolecular bonds between asphaltene particles. When used with paraffin solvents it can be circulated for process equipment or added to batch pigging programs for removal from pipelines.

APPLICATIONS

- Effective solvent for asphaltene removal
- Helps break strong intermolecular asphaltene bonds
- Suitable for pipeline and process applications

FEATURES

- High solvency power
- High flash point solvent
- It is not classified as a hazardous waste by the Environmental Protection Agency (EPA)

BENEFITS

- The dissolution rate of asphaltene deposits can be enhanced with the addition of SureDsolv™ T to paraffin solvents
- Easy to transport and store
- Does not cause emulsion issues
