

SureDfend™ 0

OXYGEN SCAVENGER

OVERVIEW

SureDfend™ 0 is an oxygen scavenger intended for use in fresh or sea water applications. Removing dissolved oxygen decreases the corrosion rate and helps control fouling caused by the precipitation of iron oxides.

APPLICATIONS

- Effective protection against CO₂ and H₂S acid gas corrosion
- Designed for batch treatment of flowlines and pipelines
- Works by forming a protective film at the metal surface

FEATURES

- Removes dissolved oxygen from fresh water and seawater
- Suitable for hydrotest applications
- High flash point product

BENEFITS

- Mitigates oxygen induced corrosion and fouling
- Cost effective treatment for water injection systems
- Safe product for storage, transport and handling
