

# SureGL™ X

## RAPID MIX GEL SYSTEM

### OVERVIEW

SureGL™ X is a rapid hydration gel for water-based fluids. It develops viscosity very quickly and is free from typical residues found in polysaccharide hydrogels. SureGL X can be run as a linear or complex gel making it ideal for a variety of pipeline applications.

The fluid enables a substantial amount of design flexibility for a number of applications ranging from debris pickup to change of service.

#### APPLICATIONS

- Debris pick up and cleaning operations
- Product separation
- Lubrication
- Change of service

#### FEATURES

- Rapid hydration
- High viscosity fluid
- Easy mix process
- Synthetic polymer

#### BENEFITS

- Smaller equipment footprint
- Excellent debris carrying capacity
- Less time on location
- Residue free

Sales of Halliburton products and services will be in accord solely with the terms and conditions contained in the contract between Halliburton and the customer that is applicable to the sale. H014232 06/22 © 2022 Halliburton. All Rights Reserved.
