

# SureDcon™ H

## DECONTAMINATION SURFACTANT

### OVERVIEW

SureDcon™ H agent is a very versatile additive because of its amphoteric ionic character. It is a foaming agent that can be used for foam-based cleaning solutions, particularly when used with CO<sub>2</sub> or N<sub>2</sub>. It is also a surface-tension reducer and in some cases

can act as a non-emulsifier to break down and prevent the formation of emulsions. The chemical nature of this product allows compatibility with a broad range of chemicals, such as cationic and anionic additives.

#### APPLICATIONS

- Decontamination and de-oiling
- Foaming agent with N<sub>2</sub> or CO<sub>2</sub>
- Surface tension reducer
- Solids-suspending agent
- Preventing and breaking down emulsions

#### FEATURES

- Amphoteric chemistry
- Foaming agent
- High flash point
- Neutral pH

#### BENEFITS

- Acts as a surface tension reducer
- Usually behaves as a non-emulsifying agent
- Easy to transport and store
- Can be used to prepare stable N<sub>2</sub> or CO<sub>2</sub> foams
- Compatible with cationic and anionic chemicals
- Can foam fluids containing methanol
