Without a solid system in place to track your assets, managing resources becomes a task that eats extra money and time you don’t have. Your trusted partners at Follett can help you make sure everything is tracked, managed, and organized within a single system!

**Barcode and Catalog**
Follett not only barcodes your existing resources and assets, but we can also catalog your assets within Destiny® Resource Manager. This gives you the ability to track and distribute inventory with minimal time and effort.

**Inventory**
If the state of your inventory in Destiny is not where you’d like it, and you want a more accurate current picture of your collection, from Chromebooks to band instruments, we can help. A Follett team will travel to you, re-scan all your resources, and upload them to Destiny.

**Device Management**
Making the transition from textbooks to digital devices? Follett can help you barcode and enter each device in Destiny. Save time and be confident that your devices can be checked out by student and faculty and remain accurately tracked.

Get Advice from the Experts

Follett Consultation Services are available, remote or on-site, to support you in implementing best practices associated with all levels of resource management, saving you time and money.

Policy and Process Development or Improvement

Do you have all the policies in place to manage your textbooks and assets with Destiny® Resource Manager? Follett can help guide you to improve your process, redefine accountabilities, and develop and deploy new supporting policies.

Barcoding and Inventory Projects

In need of better accountability for your resources, but may not have the budget for Follett’s full-service support? We’ll help you understand all the steps to execute your own barcoding or inventory project, from educating your leads to training your workers. We’ll even stay for a day or two as you conduct your project to ensure everything is running smoothly.

Keep Track of Your Assets

Find out why so many districts trust Destiny Resource Manager to track, manage, and assign their resources at follettk12.link/drm-ms.
