TECHNICAL DATA SHEET

1. Identification of the product and of the company/undertaking

Product identifier

9195100071	Mirka® Bumper Push Tool
------------	-------------------------

Details of the supplier:

Company: Mirka Ltd
Address: Pensalavägen 210
FI-66850 Jeppo, Finland
Phone: +358 20 760 2111
National contact: sales@mirka.com

2. Product description

Advanced ergonomic push hand tool for professional bumper repair. The integrated 12-function design enables precise pushing, shaping and contour correction of damaged plastic bumpers with a single tool.

3. Properties

- 12 push and manipulation functions in a single tool
- Ergonomic grip and thumb hold for maximum control
- Designed not to mark or damage plastic parts during use
- Compact, multi-purpose design for collision repair work
- Durable engineered tool body with contoured handle

4. How to use

1. Identify the area of the bumper or plastic part requiring reshaping.
2. Select the appropriate working end of the tool for the push or manipulation task.
3. Apply steady, controlled pressure to gradually reshape the plastic back to its original contour.
4. Work in small sections, checking panel alignment and fit as you progress.

5. Storage

Store in a dry tool case or storage area away from extreme heat sources.

6. Maintenance

Wipe down after use to remove dirt, adhesive, or repair residue. Inspect regularly for cracks or wear and replace if damaged.
