Address: Pensalavägen 210
FI-66850 Jeppo, Finland
Phone: +358 20 760 2111
National contact: sales@mirka.com

2. Product description

The Mirka® Edge Guide allows adjustment between 45° and 90° to accommodate different edge finishing tasks. The Edge Guide comes fitted with one felt pad. For replacement or extended use, additional felt pads are available as an accessory.

- Suitable for every edge: raw, painted, filled, or processed.
- Keeps the sander steady at the desired angle, preventing tipping or sanding through.
- Adjustable angle from 45° to 90° for different edge types and finishes.
- Enables comfortable sanding of even larger workpieces with consistent precision.
- Compact design ensures easy handling and clear visibility.
- Tool-free attachment to DEROS® II, no wrenches or tools required.
- Quick and convenient setup for a more efficient workflow.
- Significantly faster than manual edge sanding, improving both efficiency and cost-effectiveness.

3. Intended use

- Furniture manufacture and joinery
- Edge finishing and detailing work
- Painting and varnishing preparation
- Sanding of filled, painted, and solid wood edges
- Work on larger panels or pieces where precision and repeatability are essential
