

TECHNICAL DATA SHEET**1. Identification of the product and of the company/undertaking****Product:** Abranet® HCX Abrasives**Details of the supplier:**

Company: Mirka Ltd
Address: Pensalavägen 210
FI-66850 Jeppo, Finland
Phone: +358 20 760 2111
National contact: sales@mirka.com

2. Product description

The Abranet HCX range is a complete sanding system for hard surfaces and composites, with a grit range from 40 to 400. It provides a more controlled scratch pattern than competing abrasives, which accelerates surface finishing by reducing rework and improving precision and repeatability.

Abranet HCX provides significant advantages for industrial manufacturers of boats, aircraft, trains, and others working with hard composite materials and epoxies. It's easy to use, delivers consistent sanding results, and offers the outstanding dust-free sanding performance familiar to all Abranet users.

3. Suitable Materials

- Composites
- Gel coat
- Glas fibre
- Marine primer
- Marine filler
- Undercoat
- Epoxy based coatings

4. Properties

Backing Material	PA net / PES net
-------------------------	------------------

Bonding	Resin
----------------	-------

Coating	Closed
----------------	--------

Color	Blue
--------------	------

Grain	Ceramic / Aluminium oxide
--------------	---------------------------

Available formats	Discs, Rolls
--------------------------	--------------
