

Use only approved Ice Machine Cleaner and Sanitizer. Order Code IMDS1

Read and understand all labels printed on bottles before use.

Do not mix Ice Machine Cleaner and Sanitizer solutions together.

Wear rubber gloves and safety goggles when handling Ice Machine Cleaner or Sanitizer.

Must Do's

- ✓ Clean exterior - Daily
- ✓ Check quality of ice - Daily
- ✓ Clean grill, condenser (Fig4) and sanitize - Weekly
- ✓ Clean & sanitize machine interior - Monthly

Never Do's

- ✗ Leave the bin door open
- ✗ Store anything in ice bin
- ✗ Use Anything to force ice from the Evaporator
- ✗ Switch machine off unless cleaning/servicing

Step By Step Guide To Cleaning & Sanitizing

1. Switch machine **OFF** at main isolator switch at the end of a harvest cycle.
2. Allow ice to drop from the evaporator remove all ice from bin.
3. Mix 250ml of descaler with 2ltrs of water in a suitable container.
4. Use a nylon brush and scrub the inside of the bin, inner door and track, sump trough and mouldings. Thoroughly rinse with clean water.
5. Add the remaining 250ml of descaler into water trough.
6. Remove front panel and press switch to **II CLEANING CYCLE** position (Fig. 1) and switch machine **ON** at main isolator switch.
7. Allow the cleaner to circulate for approximately 15 minutes to remove any mineral deposits.
8. Switch machine **OFF** at main isolator switch. Remove sump plug (Fig. 2) and allow sump to drain. Rinse sump plug in clean water and replace.
9. Remove the splash curtain (Fig. 3) and inspect evaporator and spray bar to ensure all mineral residue has been removed. If necessary wipe with a clean soft cloth.
10. Carry out Sanitize procedure.
11. Switch machine **ON** at main isolator and leave machine on cleaning cycle for approximately 5 minutes.
12. Switch machine **OFF** at main isolator switch. Remove sump plug (Fig. 2) and allow sump to drain and replace.
13. Check condenser (Fig.3) to ensure it is not blocked with dust, if blocked vacuum out without damaging the condenser fins.
14. Switch machine to **I OPERATING** and replace front panel. Switch machine **ON** at main isolator switch.
15. Manufacture 2 harvest of ice and discard. Inspect 3rd harvest then assume normal operation.
