LES ALIZÉS

LES ALIZÉS, the Fall 2011 Collection from Brunschwig & Fils, is named for the fabled easterly trade winds found in the tropics. For centuries, these surface winds have propelled captains of merchant sailing ships across the world's oceans, enabling the expansion of European empires and the establishment of trade routes to the Far East.

The resulting convergence of Western and Eastern cultures has inspired this exclusive collection of vibrant prints, distinctive embroidered fabrics and trimmings, and coordinating weaves. Each of the archival designs in Les Alizes have been rendered in innovative interpretations and richly colored palettes.
