Maisonnette Collection

The brilliant prints, luxurious weaves and intricate embroideries in Brunschwig & Fils' Maisonnette Collection work seamlessly to create vibrant rooms that feel collected over time. Having borrowed its name from an earlier collection for the 1960's, this new range of fabrics includes patterns of ethnic, traditional and contemporary genres many of which are revived from the extensive Brunschwig & Fils archive and explored in visionary new combinations of style and color. As it retains the company's rich heritage of exceptional design and quality, Maisonnette presents endless opportunities to interplay classic elements with new patterns adding a contemporary feel to sophisticated interiors.

“Good design is forever.”
