

# Conga Sign for Web

Implement with confidence.  
Rapid go-live.

Conga's professional services team provides a quick and easy path to get Conga Sign for Web up and running in weeks. We can deploy Conga Sign for Web in various ways to help you collect your needed signatures—anytime, from anywhere.

Service package	Start to go-live
Conga Sign for Web	3 – 6 weeks based on Package

## Challenges

- Limited bandwidth of technical administrative resources to deploy new software
- Tight timeline and the need to deploy quickly
- Lack of product knowledge and enablement on eSignature solutions
- Complex use cases spanning multiple departments and documents in need of signatures

## Key benefits

- Conga expertise and best practices delivered by the same Revenue Lifecycle Management experts who engage in large-scale implementations across our product suite
- Quick implementation and go-live in as little as three weeks
- Fixed fee costs that eliminate risks to your budget and scope
- Easy-to-configure baseline package and fixed fee add-ons that best fit your needs

"The Conga team delivered exactly what was promised, for the price promised and, in the time frame promised, which is rare in today's world."

**Fred Claghorn, Director of Insurance | Good Life Insurance Associates**
