

Conga Sign for Web Accelerator

Implement with confidence.
Rapid go-live.

Conga’s Professional Services team provides a quick and easy path to get Conga Sign for Web up and running in weeks. Conga Professional Services can deploy this standalone eSignature solution in various ways to collect your needed signatures anytime, anywhere.

Service package	Start to go-live
Conga Sign for Web	3 Weeks

Challenges

- Limited bandwidth of technical administrative resources to deploy new software
- Tight timeline and the need to deploy quickly
- Lack of product knowledge and enablement on eSignature solutions
- Complex use cases spanning multiple departments and documents in need of signatures

Key benefits

- Conga expertise and best practices delivered by Conga Revenue Lifecycle solution experts
- Quick implementation and go-live in as little as three weeks
- Fixed fee costs eliminate risks to your budget and scope
- Easy to configure baseline package and add ons available to meet additional business needs

“The Conga team delivered exactly what was promised, for the price promised and, in the time-frame promised, which is rare in today’s world.”

Fred Claghorn, Director of Insurance | Good Life Insurance Associates
