ACCELERATOR

Conga CLM Foundation Accelerator

Achieve greater ROI with a faster go-live

CLM Accelerators introduce simplicity and inject speed into your implementations

A Contract Lifecycle Management (CLM) Accelerator from Conga gets you up and running faster with proven processes, best practices, and Conga expertise. This is a Conga Professional Services pre-packaged, ready-to-use solution to achieve greater ROI and a faster go-live.

Accelerator package	Start to go-live	Associated product
CLM Foundations Accelerator	6 weeks	Conga CLM - CLM Foundations

Challenges

- Long, complicated custom projects, scope creep, and time delays
- Long time to realize ROI and see efficiencies of the new solution
- Unknown and variable implementation costs

Key benefits

- **Improved efficiency:** Turnkey solution designed and built by Conga industry experts with 15+ years of CLM experience, coupled with comprehensive user stories and design and test scripts for a high-quality, scalable system.
- **Easy deployment:** Pre-configured CLM solution so you can be up and running within weeks, not months.
- **Reduced costs:** Proven methodology with a fixed fee professional services offering to incorporate customer-specific configurations.

Conga CLM Foundation Accelerator

Accelerator Feature	
Prebuilt CLM features	**Foundations Accelerator**
Contract lifecycle	1 out-of-the-box process
Content repository and full text search	●
Reporting views and dashboards	●
Approvals	Salesforce approvals only
Conga Sign, Adobe, DocuSign eSignature capability	●
Online contract collaboration	●
X-Author for Contracts ready for contract authoring and negotiations	●
Conga Grid for CLM only	●
Customer-specific configuration	**Foundations Accelerator**
Agreement types	2
Minor updates to the business flows	●
Basic updates to email templates	●
Contract templates: Up to 2	Up to 20 pages, 30 merge fields, and 25 conditional sections
Add-on: Up to 4 additional templates	$
Clause library: Up to 20 Clauses	●
Environment migrations	2
Add-on: Up to 3 environment migrations	$
Additional add-ons	
Legacy data migration	$

● : Capability included | $: Capability offered at an additional cost

Implement with confidence using our proven methodology

Customer readiness	Week 1	Week 2	Week 3	Week 5	Week 6 +
Data prep and requirements	Define/design, configure, testing			UAT	Launch/hypercare

- **Prep:** Work with the customer to prepare data and key requirements.

- **Plan:** Create a project kickoff readiness plan including predefined project plan, objectives, and deliverables.

- **Define, configure, and test:** Configure a defined scope with three sprints where the scope and requirements are confirmed by the customer. Solution is configured and deployment plan is developed.

- **UAT (user acceptance testing):** The customer confirms the system is configured according to agreed-upon requirements and design.

- **Launch/hypercare:** Deployment of the solution to production and one week of post go-live support.

NOTE that timeline is dependent on Accelerator scope.
