

ACCELERATOR

Conga Sign Accelerator Packages

Faster, more successful go-live

Do you want to realize business value faster from your eSignature solution?

Conga Sign accelerator packages provide pre-configured, easy-to-use solutions for medium to large businesses. Delivered by Conga’s expert professional services team, these packages shorten implementation and ensure go-live success with Conga’s proven framework, methodology, and best practices.

Accelerator package	Start to go-live
Essentials	1 week
Essentials Plus	2 weeks

Switch with confidence

Our expert service team has deep expertise in migrating from other eSignature solutions. Our pre-packaged layouts, templates, and signature tags ensure a smooth and successful transition.

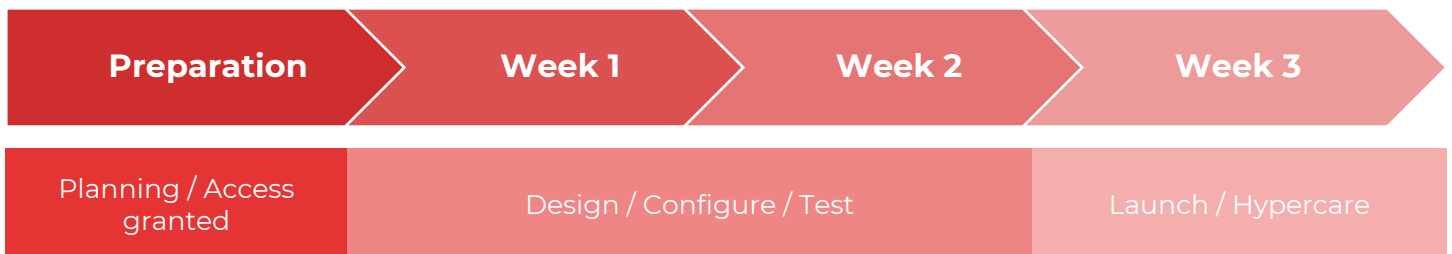

Quick and easy implementation

You can get Conga Sign up and running within weeks, not months, thanks to our pre-configured templates combined with our standard methodology and best practices.

Implement, migrate, and go live within a couple of weeks!

Scope	Essentials	Essentials Plus
Installation	●	●
3 layout updates	●	●
3 templates & 3 signature tags	●	●
6 write-back fields		●
3 auto-populate recipients		●
Migrations (Dev / UAT / Production)	●	●

Proven methodology ensures go-live success

Preparation

A project kickoff starts the process and results in a clearly defined project plan. Next steps are environment provisioning and access.

Design, configure, and test

Working closely with customers, the team gathers requirements and identifies scope. They design, configure, and test, then iterate those steps, all based on framework and best practices. Essentials and Essentials Plus include standard layouts, templates, and signature tags. Write-back fields and auto-populate recipients are included in Essentials Plus only.

Launch and hypercare

A smooth and successful go-live is followed by a week of post go-live support.
