time savings

Conga's AI provides the most ethical contract management tools empowering legal, sales and procurement teams to automate compliance, accelerate review and negotiations, and gain insight into contract language. It provides accurate extraction and insights into contract language and compliance, accelerating contract review and negotiations. Conga's Advantage AI ethical layer prioritizes transparency in how our models work: respect for privacy, human oversight, and fairness while giving users control over their data. Risk assessment identifies clauses that need your attention and AI suggestions help mitigate risk. No training required—create custom AI models in minutes for precise results and improve contract management.

“

Our original CLM was clunky and cumbersome, and when I ran a report extracting data from all of our contracts, the lack of accuracy across data points was just unacceptable.
