Contract Lifecycle Management for clinical trials

Streamline processes, reduce risk, and accelerate clinical trials

Manage contract lifecycles across regions and therapeutic classes to mitigate risk, reduce friction, and empower trials at scale

Conga Contract Lifecycle Management (Conga CLM) is an end-to-end contract lifecycle management solution built to automate highly complex contracting processes that span geographies, therapeutic classes, and agreement types. It empowers everyone involved in the contracting process, increases contract visibility, and enforces compliance to mitigate risk.

Conga CLM handles the most complex processes and stands out when challenged by complexity. If the contract lifecycle has various workflows with several reviewers, contains highly amended contracts, or needs input from multiple people in several departments, Conga CLM is the right fit.

Conga's suite of products unifies the entire clinical trial contract lifecycle. As an extension of the Salesforce user experience, user adoption is quick and keeps you with one system of record. Conga CLM for clinical trials combines our market-leading software with a focused implementation accelerator.

“The real value is that we will provide our business owners of these contracts really accurate data. And moving forward, we will have a better sense of our contracting universe.”

Greg Bennett | Manager, Legal Operations, Gilead Sciences

Challenges

- Manual contract processes slow down clinical trials and delay approvals
- Lack of contract visibility leads to missed amendments, obligations, and unwanted risk
- Inability to standardize third-party contracts into the process creates gaps in data
- No contract process compliance creates business and legal risk
- No integration between contract processing and your CTMS creates a disjointed user and customer experience

Key benefits

- Improved efficiency: Turnkey solution coupled with comprehensive user stories, design, and test scripts for a high-quality, scalable system
- Easy deployment: A pre-configured foundational CLM solution deployed in weeks, not months, so you can be up and running fast
- Reduced costs: Professional services based on a proven methodology that incorporates customer specific configurations, all for a fixed fee
- Mass contract creation: Empower users to accelerate contracts across hundreds of investigators

Setup

Procedure master & study protocol
 Clause library & linked master obligations
 Multi-language agreement templates
 Sites in mass
 Workflow rules

Budget

Excel-based budget application
 Multi-currency country & site budgets
 Fair market value validation & exception tracking
 Budget negotiation workflows

Contract

CTA, CDA, ICF, NDA, ...
 Country agreement
 Site agreements in mass
 Redlining, versioning, negotiation
 Obligations & milestones
 Third party paper import

Execute

Agreement document generation
 eSignature
 Portal collaboration
 Obligations & tasks
 CTMS & payment integration

Report

FMV reporting & audit trail
 Budget consumption
 Obligation tracking
 Cycle time reporting
 Study execution reporting

Faster contract processing

Modern contract lifecycle management for a digital world

Conga CLM has the features you need to streamline contracting from start to finish

Automated contract processes

Take control of creating, negotiating, and executing your contracts for faster cycles.

Pre-approved language

Eliminate lengthy delays in legal approval by incorporating standard language and clauses.

Contract visibility

360-degree view of the entire contract cycle, including negotiations, emails, documents, and more.

Seamless integrations

Manage the entire contract lifecycle without leaving the tools you use every day, like Microsoft Office and your CRM.

Online contract collaboration

Collaborate online with any approved individual who can securely comment and redline an agreement in real time.

Synchronized data and versions

Changes in contracts are reflected across all agreements regardless of source.

Configurable alerts

Get notifications for key events and dates throughout the contract lifecycle.

Contract analytics

Get visibility into renewals, expirations, cycle times, compliance, and risks.

Contract repository

Store final contracts, approval history, and change history in a secure repository.

Third-party contracts

Use AI and machine learning to ingest legacy and third-party contracts to uncover new insights. Track and compare third-party contracts, map the data to Salesforce fields for reconciliation, and identify which clauses should be saved in the clause library to manage risk and optimize revenue.

Multi-language and multi-currency support

Get 30+ languages and currencies out-of-the-box.

Request Wizard

Enable users to request contracts via a dynamic questionnaire.

CLM Accelerator for clinical trials introduces simplicity and speed into your implementation

The CLM Accelerator for clinical research speeds up implementation to help pharma manufacturers and CROs manage the budgeting and contracting processes of clinical trials. This pre-packaged, ready-to-use solution from Conga Professional Services is built with proven industry best practices that drive efficiency, accuracy, and compliance.

Solution design

- **Plan:** Conduct project kickoff readiness, including predefined project plan, objectives, and deliverables.
- **Define and configure:** Configure a defined scope with three sprints where the scope and requirements are confirmed by the customer. Solution is configured and deployment plan is developed.
- **SIT (system integration testing):** Conga verifies the solution.
- **UAT (user acceptance testing):** Customer confirms the system is configured according to agreed-upon requirements and design.
- **Launch/hypercare:** Solution is deployed to production and one week of hypercare begins.

CLM Accelerator for clinical trials features

Conga Contract Management	Quick start CLM
Full contract lifecycle with three business flows: self-serve, legal assist, store executed	Pre-configured agreement types: <ul style="list-style-type: none"> Clinical trial agreement (CTA) Confidentiality disclosure agreement (CDA)
