Conga Composer Web Accelerator

Achieve greater ROI with a faster go-live

Conga Composer for Web Accelerator introduces simplicity and injects speed into your implementations.

A Conga Composer Web Accelerator from Conga Professional Services gets you up and running faster with proven processes, best practices, and Conga expertise. This is a Conga Professional Services pre-packaged, low-cost, and quick-to-implement solution to achieve greater ROI, a faster go-live, setting you up for easy expansion.

Service package	Start to go-live
Conga Composer Web	3 Weeks

Industry challenges

- Complex data structures, easy to over-complicate projects, scope creep, and time delays
- Self-implementations can delay time to realize ROI and to see efficiencies of the new solution
- Unknown and variable implementation costs

Accelerator benefits

- Improved efficiency: Solution designed and built by Conga industry experts with 15+ years of document generation experience provides a high-quality, scalable solution.
- Reduced costs: Proven methodology with a fixed fee of professional services to reduce risk and incorporate customer-specific configurations.
- Enable your team: Training and support from our services team included to help your team expand the solution

> " **A great experience overall. We had good, timely interactions and we came away with a good solution for our organization.** "
