

Skin Confidence Starts Here

Our all-in-one Starter Kits have everything you need to visibly improve your skin at home, targeting specific skin concerns and fitting neatly into your morning and night time routine. Perfectly prepares and supports the skin when microneedling too!

Read on to discover our step-by-step guide on how to correctly apply the unique cleansers, correctors and creams in our **ANTI-AGEING STARTER KIT**.

Cleanse

TRI-PHASE CLEANSER™

USE AM & PM

A gentle face cleanser that reduces the visible signs of ageing, pigmentation and dehydration. TRI-PHASE CLEANSER's revolutionary transformation technology locks moisture into your skin while removing makeup and impurities. As water is added, this clever cleanser transforms from balm to gel to milk.

DIRECTIONS:

Apply an almond-sized amount to dry face and gently massage into the skin with light circular motions. May be used around the eye contour area. Add water to activate the milk phase and continue to remove makeup and impurities using a damp cotton wipe.

Rinse thoroughly with lukewarm water. Pat dry.

EXPERT TIP:

For the deepest cleanse and extra radiance, try double cleansing by following with MICRO DERM EXFOLIANT.

Penetrate

ANTIOXIDANT COCKTAIL™

USE AM & PM

This superb blend of antioxidants works like an environmental shield, guarding against free radical attacks resulting from both natural and environmental factors. Dp Dermaceuticals ANTIOXIDANT COCKTAIL is your must-have serum to reverse the signs of ageing, brighten skin tone and tighten loose skin.

DIRECTIONS:

Apply 2-3 pumps to dry skin. Massage lightly into the skin until absorbed.

EXPERT TIP:

Use Dp Dermaceuticals ANTIOXIDANT COCKTAIL mixed 1:1 with Hyla Active for your Dermapen HOME treatments to allow actives to reach up to 80% deeper into the skin.

Not into needles? That's ok! Try medical-grade L.E.D. technology, which has a similar effect, increasing the absorption of skincare to accelerate and enhance results.

Correct

VITAMIN RICH REPAIR™

USE AM

Repair and strengthen your vulnerable complexion with this replenishing corrective solution containing Vitamin A derivatives – Retinyl Palmitate and Retinyl Acetate. Enriched with essential daily vitamins (A, B, C, E), peptides and antioxidants, and helps to diffuse and sedate the effects of free radical aggression for younger-looking skin.

DIRECTIONS:

Using clean fingertips, massage 1-2 pumps of VITAMIN RICH REPAIR into the skin.

Avoid the eye area.

RETINAL ACTIVE™

USE PM

This powerful solution contains the highest form of retinoid available without a prescription – Retinaldehyde (Vitamin A). RETINAL ACTIVE is a must-have lifting face cream, combining repair and rejuvenation properties and anti-ageing antioxidants.

DIRECTIONS:

To build skin tolerance, apply RETINAL ACTIVE every 2-3 days for 1-2 weeks, then increase application to every night. Apply sparingly to dry and cleansed face, neck and décolleté in the evening only.

If irritation occurs, stagger the use to alternative nights or every 3rd night.

Protect and camouflage

COVER RECOVER™

USE AM & AS REQUIRED

Packed full of powerful anti-ageing vitamins A, C and E, botanicals, peptides, probiotics and hyaluronic acid, this medicated SPF provides flawless camouflage for any imperfections.

DIRECTIONS:

Apply 20 minutes before going out into the sun, and reapply every 3 hours during extended periods of sun exposure.

Intensify

HYLA ACTIVE™ 3D SCULPTURED MASK USE WEEKLY

Our signature hydrating face mask has a cult-like following. Devotees love Hyla Active™ 3D Sculptured Mask for its potent hydrating and healing properties. Featuring an intensive dose of HylaFuse™ Complex, our signature Hyaluronic Acid formulation, your skin emerges feeling revitalised, smooth and awakened.

DIRECTIONS:

Apply Dp Dermaceuticals Hyla Active 3D Sculptured Mask to the face starting at the forehead, wrapping around the ears, then smoothing out over the remainder of the face.

Allow the mask to activate for 10–30 minutes before removing and discarding. Massage any excess skin brightening mask residue into the skin.

EXPERT TIP:

Accelerate your results by adding clinical or at-home Dermapen treatments into your routine. The ANTI-AGEING STARTER KIT will perfectly prepare your skin for microneedling, and the visible effects will be incredible.
