

SEE DEEPER. BE MORE EFFICIENT.

**Spaide Fundus
Autofluorescence (FAF)
Filters** Exclusively
from Topcon.

Better visualization of FAF images
with improved tonal contrast
and reduced noise

20 times more efficient than
standard FAF filters

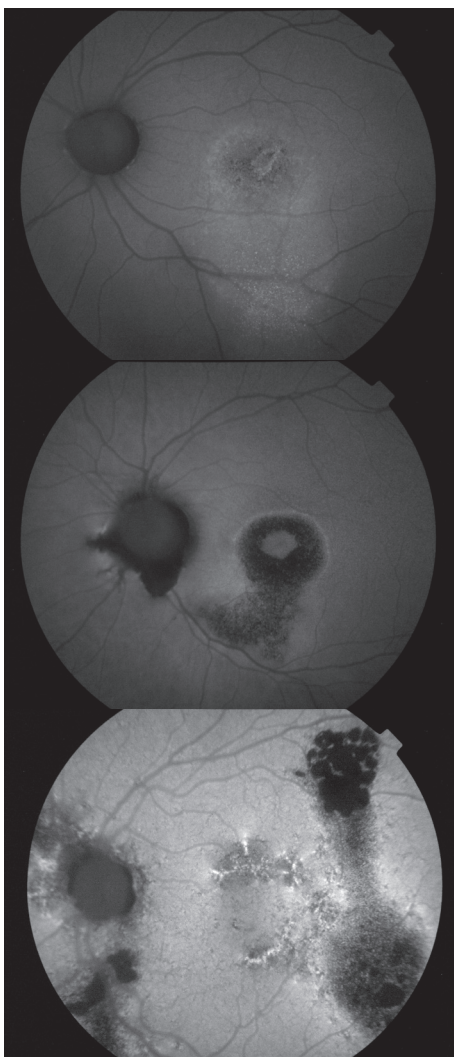

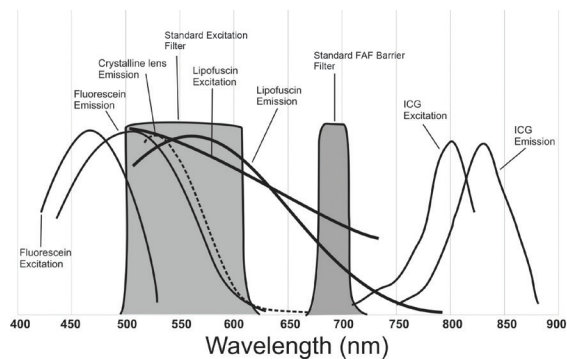

Images can be taken during or post
angiography without artifacts

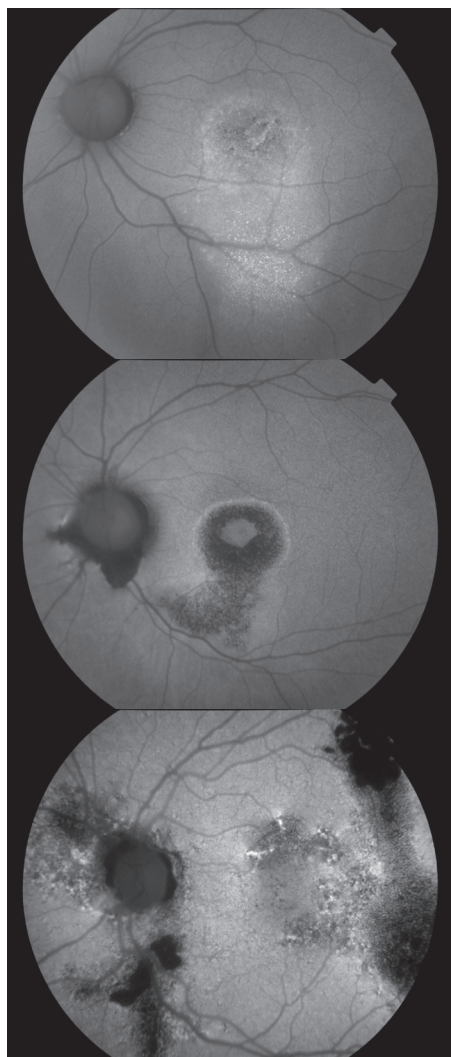

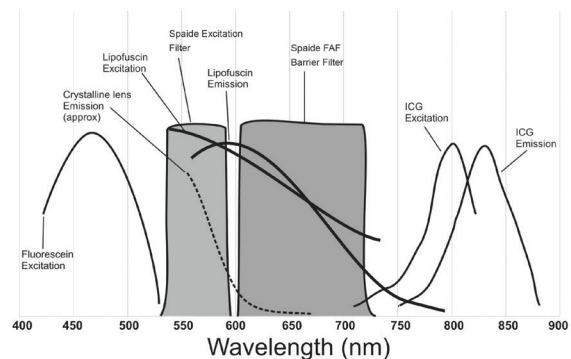

Require 40% less exposure than
standard FAF filters for greater
patient comfort

Standard FAF Barrier Filters

Spaide FAF Barrier Filters

Spaide Fundus Autofluorescence (FAF) Filters are incorporated in Topcon TRC-50DX and DRI OCT Triton plus.
