Global Payments Terminal – S1000F / S1000E
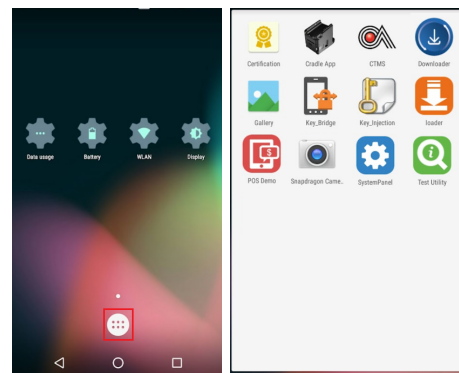

Download procedure

The download procedure should match your terminal type. Do not modify any parameters during a download if not specified in the procedure. In case of any problem, please reach out to your Account Manager for further assistance.

NOTE: The Global Payments Terminal you received is a demo unit, therefore only B2 test cards can be used for transactions processing**.**
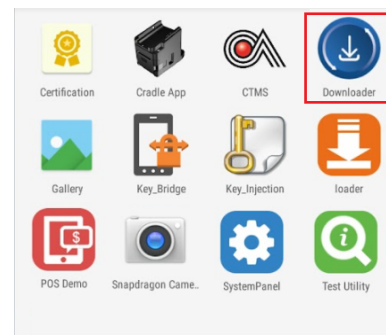

Step 1

Tap the **[⊞] Android all apps** button to access the Android menu tray. And the Android menu tray displays.

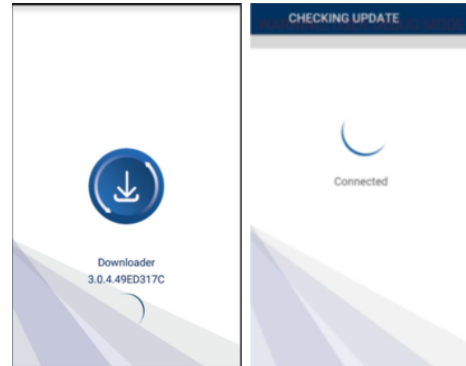

Step 2

Tap the **Downloader** application icon.

Step 3

Initialization screen showing the name of application and, version will appear.

During startup, the downloader app will automatically check if there's an update available for itself.

Step 4

NOTE: The error screen is the expected response because the proper downloader parameters was not loaded to your development unit.

After the error screen, the **DOWNLOADE**R screen displays right away. Tap **ADMIN** to continue.

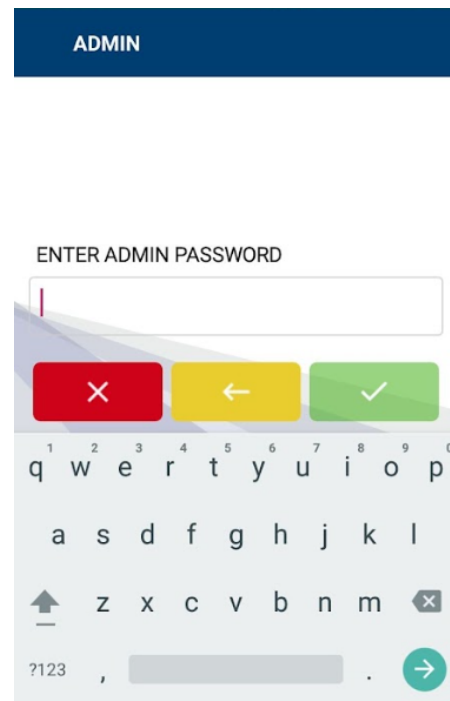

Step 5

Enter the admin password then press [✓].

The Admin password is calculated by using Today's Julian date or today's day # then times it by 2. *For example for April 27, it is Julian date/day # 117. Use 117 x 2 = 234. The Admin password is 234 on April 27.*
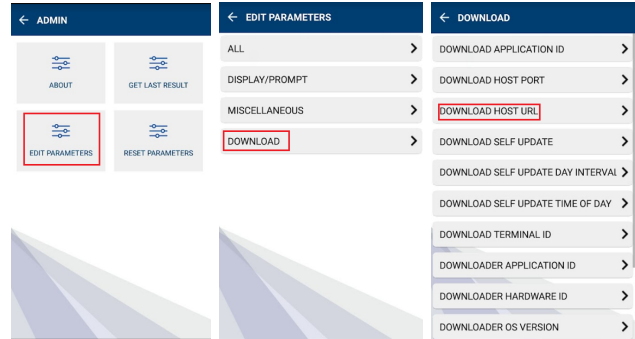

NOTE: To get the Julian date, please Google "*what is the julian date today April 27*", the below screenshot will show up:

Julian Date Calender (PERPETUAL)		
Day	Jan	Apr
25	025	115
26	026	116
27	027	117

Step 6

1. Tap **EDIT PARAMETERS**

2. Tap **DOWNLOAD**

3. Tap **DOWNLOAD HOST URL**

Step 7

Confirm the URL is: **sslhps.test.hpsdnldnet**

Tap [✓] and tap [✓] again when "*SAVE THIS PARAMETER?*" displays.

Step 8
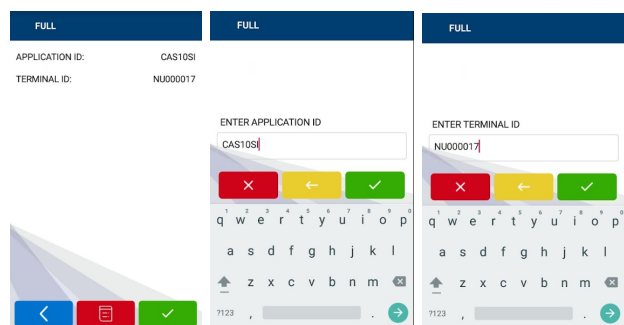

Now go back to the **DOWNLOADER** main screen:

1. Press **[<–]** on the top left corner until the **DOWNLOADER** screen displays.

2. Tap **DOWNLOAD**

3. Select **FULL** for full download.

Step 9

Select the edit key [🗒], type in your **APPLICATION ID** and **TERMINAL ID**, and then press [✓] to finish edits.

- Application ID: **CAS1OSI**
- Terminal ID: **Enter the TID provided to you**.

| FULL	
APPLICATION ID:	CAS10SI
TERMINAL ID:	NU000017

Step 10

Confirm that you have entered the correct
APPLICATION ID and **TERMINAL ID** displayed, press
[✓]

Step 11

Global Payments Terminal will connect with the
Universal Download server (UDS) to perform the
download.

INSTALLING	DOWNLOADING	DOWNLOAD
INSTALLING	RECEIVING	DOWNLOAD
emv_lib.CAP	PACKAGE COUNT: 1 of 1	DOWNLOAD SUCCESSFUL
FILE COUNT: 1 of 2	DOWNLOAD SIZE: 4,360,535 BYTES	
PLEASE WAIT	ATTEMPT 1	
	FILE COUNT: 1 of 2	
	PARAMETER COUNT: 0 of 0	
	PROGRESS: 1.00%	

Step 12
