

Ceiling & Wall Scape

Grille

Sound screen

A grille never looked this good. Filter sound in style with a ceiling-to-wall aesthetic takeover. Elegant, exacted panels create an elevated effect while working hard to screen noise.

How To Specify

Key Information

Grille can line your space in a variety of ways. Consider these questions as you design your layout. Follow steps 1 - 7 if your project requires shop drawings.

Quick Ship

Grille is available as a Quick Ship product which allows our standard lead time for shop drawings to be eliminated, moving the project directly into production.

Quick Ship Notes

Installation and seaming drawings are not included in this process. Turf recommends 10-15% additional panels to cover overage / attic stock.

Capped Blades

Capped blades are available upon request, and are not available as an option for Quick Ship. See details on the following page for more information.

1

What are the dimensions of the space?

PAGE 3

2

Do you need ceiling panels, wall panels, or both?

PAGE 3

3

Are you using 9/16" or 15/16" flat tee grid in the ceiling?

PAGE 3

4

Will any panels at the edge of your ceiling have visible edges?

PAGE 3

5

If you need wall panels, will you use z-clips or construction adhesive by others?

PAGE 4

6

Which panel type do you need?

PAGE 4

7

What is the color of the blade? (Primary)
What is the color of the backer? (Secondary)

PAGE 10-12

1. Do you need ceiling panels, wall panels, or both?
2. If ceiling panels, what is the size of tee grid?
3. If wall panels, are you using z-clips or construction adhesive by others?
4. If wall panels, will they be put up vertically or horizontally?
5. Which panel type do you need?
6. What is the color of the blades & backer?
7. How many panels do you need?
8. Do you want to include any additional product for overage or attic stock?

Dimensions

Standard Ceiling Panel	24"W x 48"L
Standard Wall Panel	24"W x 120"L
Panel Types	G4, G5, G6, G7, G8
	See our Panel Types & Connections page for more information.

Ceiling Connection Options

9/16" or 15/16" Tee Grid	GridLock
--------------------------	----------

Wall Connection Options

Standard Connection	Z-Clip
Connection By Others	Construction adhesive
	Panels should be installed with construction grade adhesive specified by the contractor.

General

Capped Blades	Panels with a visible edge are available with capped blades upon request.
9mm Palette	Grille can be specified in any of our 9mm felt colors or Textures.
Color Match	Have another color in mind? Our UV printing process can match almost any hue.

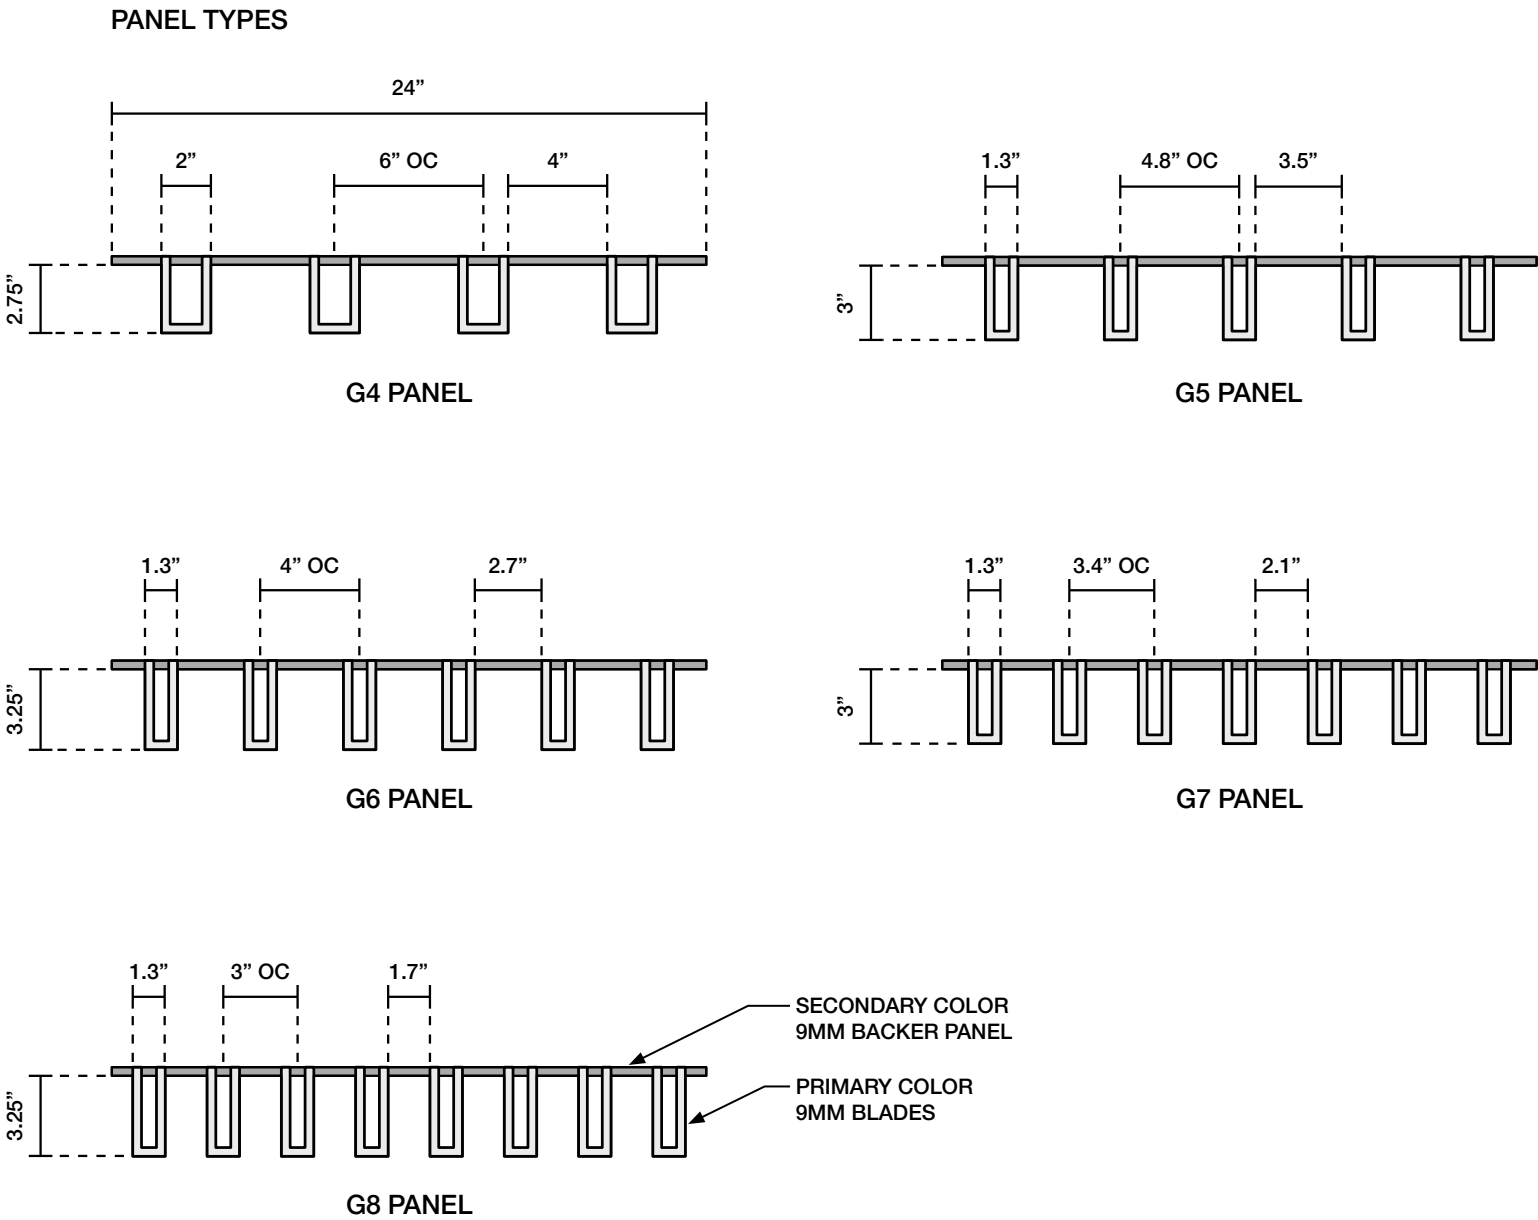

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

Panel Types & Connections

Number of Blades	Grille panels are separated by the number of blades. Panels range from 4-8 blades.
Blades OC Spacing	Blades are evenly distributed to create a seamless layout.
Product Coordination	<p>G5-G8 Grille panels have 1.3"W blades that coordinate well with select lighting partners. See the Lighting Integration page for more information.</p> <p>G4 has 2"W blades that coordinate with the Arbor product. See Turf's website for more details.</p> <p>turf.design/products/arbor</p>

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

Typical Elevation Layouts

Wall Scape

Choose from any panel type, then configure your layout — lay panels top to bottom to create a Vertical layout, or side to side for a continuous Horizontal layout.

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

Lighting Integration

Coordination
Turf does not coordinate panels to accommodate specific light fixtures. All modifications are to be made in field by the installer. Panels do not include light fixtures.

Trim in Field
See Ceiling Installation & Trim Guide page for more information on how to prep panels for lighting integration.

Lighting Partners

Light Fixtures
Turf does not supply lighting. Please visit the manufacturer website for more information on lighting coordination.

See Slate™ product family for more information. The table below shows Turf’s guide for which light options integrate best with certain panels.

AXIS Lighting Integration by Panel Type				
Panel Type	Slate 1	Slate 2	Slate 3	Slate 5
G4	-	R	FB	-
G5	R	-	FB	-
G6	R	FB	-	-
G7	R	FB	-	-
G8	R, FB	-	-	-

Installation & Trim Guide - Ceiling

Grille panels are designed for quick and easily installation into the ceiling, and can accommodate trimming in field — just follow this simple guide.

Tools Required

SHARP BLADE

STRAIGHT
EDGE

DRILL

HOLE SAW

Installation & Trim Guide - Walls

Grille panels are designed for quick and easily installation onto the wall, and can accommodate trimming in field — just follow this simple guide.

If you're using a standard z-clip connection, Turf installs 2" z-clips on the back of each Grille panel with additional runs of z-clips for mounting use by the installer.

Grille can also be requested without any additional connection hardware. Panels can be installed with construction grade adhesive specified by the contractor.

The installation instructions included are for a typical z-clip installation.

Tools Required

SHARP BLADE

STRAIGHT
EDGE

DRILL

HOLE SAW

1 - ATTACH Z-CLIP TO WALL

2 - MOUNT GRILLE PANEL

3 - TRIM BETWEEN BLADES AND HORIZONTALLY AS REQUIRED

4 - TRIM CIRCULAR HOLES AS REQUIRED

5 - DO NOT TRIM VERTICALLY THROUGH BLADES

Tech

Acoustics	ASTM C 423-17: E400 & F-13
Fire Rating	ASTM E-84 – Class A
VOC	ASTM D5116 Compliant

Details

Lead Time	Check the Turf website for current lead times.
Warranty	Five (5) years
Maintenance	Vacuum to remove any particulate matter and air-borne debris or dust. Compressed air can be used to dust the material in difficult to reach areas for large assemblies. Contact us for more information relative to spot cleaning.
Weight	Turf products cannot support the weight of any other items in field.

Acoustic Rating

Grille NRC		
Panel	Ceiling	Wall
G4	1.00	0.75
G5	0.95	0.75
G6	1.00	0.75
G7	1.00	0.80
G8	1.00	0.80

The table displays information for an 10’ x 10’ array of sound absorbing panels. “Ceiling” refers to E400 mounting type, “Wall” refers to F-13 mounting type.

9mm Colors

Introducing Hues, our new 9mm color palette designed for the senses.

The 9mm PET felt board is used as our primary construction material. Select one of our coordinating neutrals to blend in, or go for a contrasting element with one of our hues.

The process used to create PET felt often results in a heathered effect where multiple tones are present. Slight variations in color should be expected when using this sustainable material.

Felt Thickness
9mm +/-0.5 mm

Monitors and printers vary.
Please request a material sample to verify felt colors.

9mm Textures

Invite nature into your space with our wood-inspired textures. Digital printing on felt ensures a unique and realistic grain with virtually no repeats.

There is an additional product cost for Wood Textures.

Please note there is additional lead time for custom matching. Texture and customization will incur additional costs beyond our standard 9mm options.

Felt Thickness
9mm +/-0.5 mm

Monitors and printers vary.
