How To Specify

Key Information

Reveal baffle can take shape in your space in a variety of ways. Consider these questions as you design your layout.

Baffle Type

Reveal Geometric & Organic profiles are specified by the client. See "Custom Surface" page for more information.

Spacers & End Caps

Turf supplies Spacers & End Caps for baffle orders that require P1000T unistrut.

Follow the link below for more detailed information.

Baffle Types and Elevations

Connection Spacing

60" OC Max

Spacing varies per project. Baffles require a minimum of two connection points.

Reveal Classic

The Classic layout uses clean lines to create a consistent look.

Reveal Geometric

Geometric uses sharp angles to create a rhythmic wave across the ceiling.

Please note, Geometric profiles are specified by the client. See "Custom Surface" page for more information.

Reveal Organic

Organic layouts ebb and flows around the space.

Please note, Organic profiles are specified by the client. See "Custom Surface" page for more information.

Recommended Connections

FeltLock

Products with Turf’s patented FeltLock flex and compress to insert into Unistrut.

P1000T Unistrut, raw galvanized finish or powder-coated, hardware is required.

Painted unistrut may damage FeltLock installations and will void the product warranty.

Cable To Deck

Baffles with embedded cable grippers snap into deck-mounted aircraft cables.

10’ aircraft cable supplied by Turf should be trimmed in the field as needed.

Layout Considerations

- Wall Clearance

Turf recommends a 4" clearance from the wall to our baffles.
- Adjacent Baffle Clearance

Turf recommends a 1" gap between all rows of baffles. This clearance supports a uniform look and build.
- Trim in Field

Reveal Baffle cannot be trimmed in field, baffles are hollow inside.

9mm Colors

Introducing Hues, our new 9mm color palette designed for the senses.

The 9mm PET felt board is used as our primary construction material. Select one of our coordinating neutrals to blend in, or go for a contrasting element with one of our hues.

The process used to create PET felt often results in a heathered effect where multiple tones are present. Slight variations in color should be expected when using this sustainable material.

9mm Stone Textures

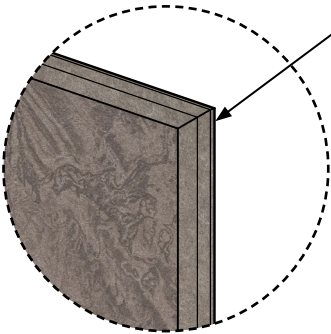

Inspired by nature, designed for felt. Our digitally printed Stone Textures capture the character and nuance of stone on top of a curated color collection from our Hues palette with virtually no repeats. The three patterns in this family each capture unique elements from the stones for which they are named.

There is an additional product cost for Stone Textures.

Turf has curated this collection to include only the best pattern and color combinations.
