

Acoustic Ceiling Baffle

Timber

Quiet by nature

Quiet wooded areas, captured in acoustics. Timber's clean construction lends itself to complex or simple sculptural forms while digital wood grains nod to nature. Wherever this tree falls, no one will hear its sound.

How To Specify

Key Information

Timber baffle can take shape in your space in a variety of ways. Consider these questions as you design your layout.

Baffle Type

Timber Geometric & Organic profiles are specified by the client. See "Custom Surface" page for more information.

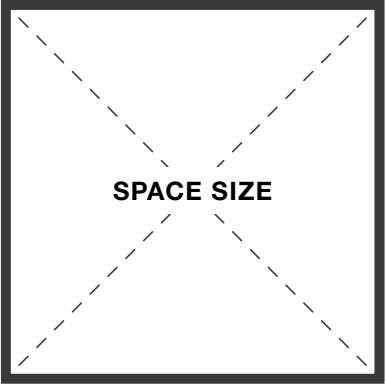

Spacers & End Caps

Turf supplies Spacers & End Caps for baffle orders that require P1000T unistrut.

Follow the link below for more detailed information.

[Spacers & End Caps Guide](#)

What is the on center spacing?

PAGE 3

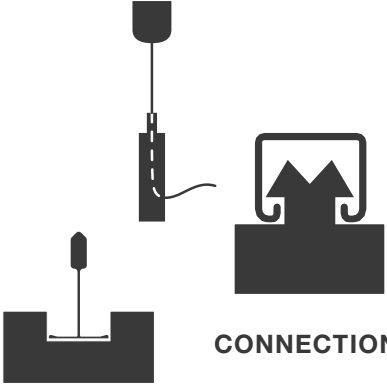

4

What is the Baffle Type?

PAGE 4-5

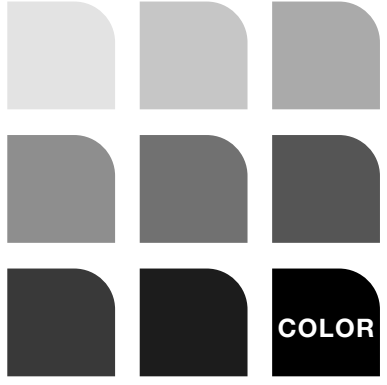

5

How will Timber Baffle mount to the ceiling?

PAGE 6-7

6

What is the color, grain or texture?

PAGE 10-13

Dimensions

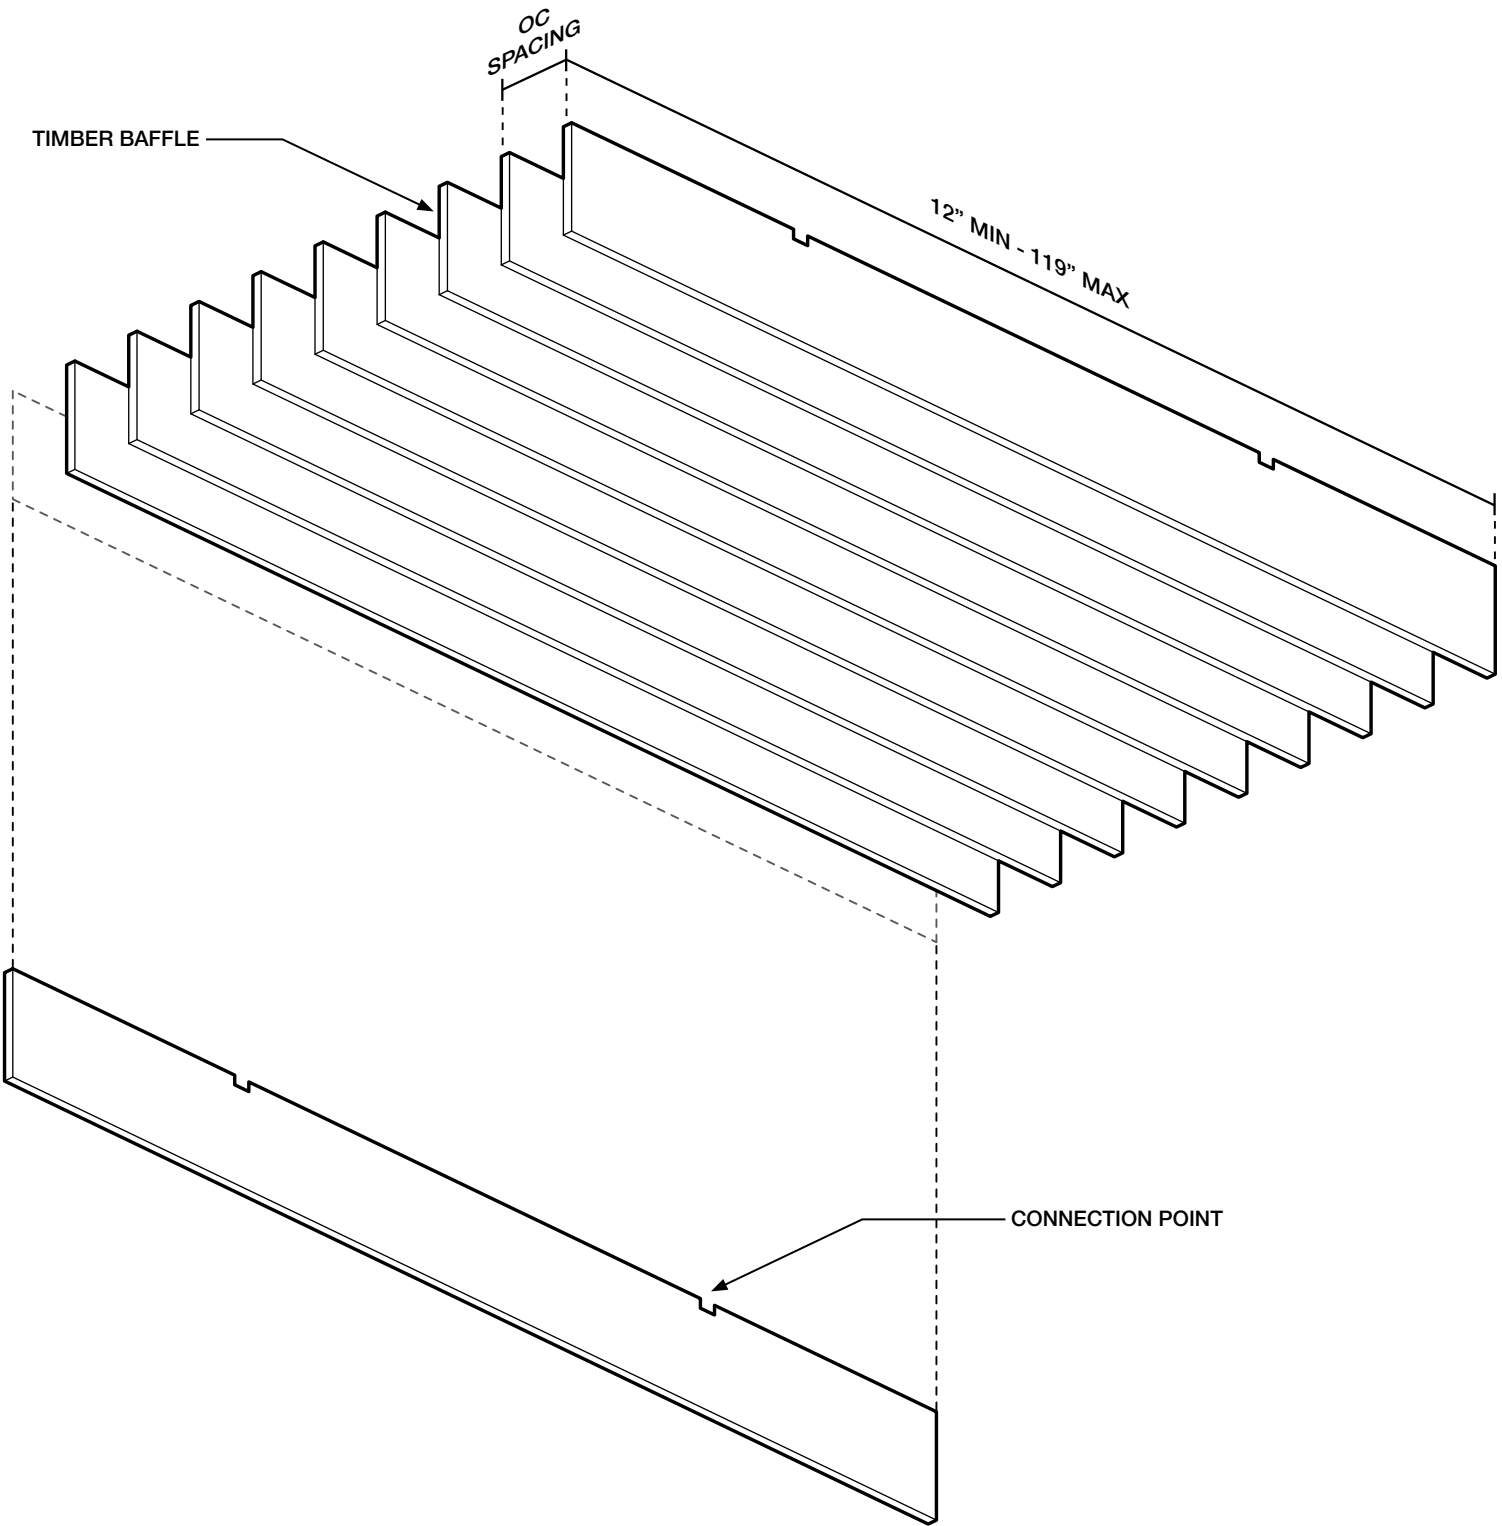

Baffle Type	Classic, Geometric, Organic
	See "Baffle Types and Elevations" page for details.
Variable Length	12"L Min - 119"L Max
Variable Depth	4"D Min - 23.5"D Max
	Timber Baffle can have any depth within the above range.
Standard Depths	7.5"D, 9.375"D, 11.5"D

Recommended Connection Options

P1000T Unistrut	FeltLock™
9/16" or 15/16" Tee Grid	GridLock™
Cable Hung	Cable To Deck
	See our "Recommended & Alternative Connections" pages for more options.

Color

9mm Palette	Timber Baffle can be specified in any of our 9mm felt colors, grains or textures.
Color Match	Have another color in mind? Our UV printing process can match almost any hue.
	Note: cut edges will show the baffle's base felt color.

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

Baffle Types and Elevations

Connection Spacing

60" OC Max

Spacing varies per project. Baffles require a minimum of two connection points.

Timber Classic

The Classic layout uses clean lines to create a consistent look.

Timber Geometric

Geometric uses sharp angles to create a rhythmic wave across the ceiling.

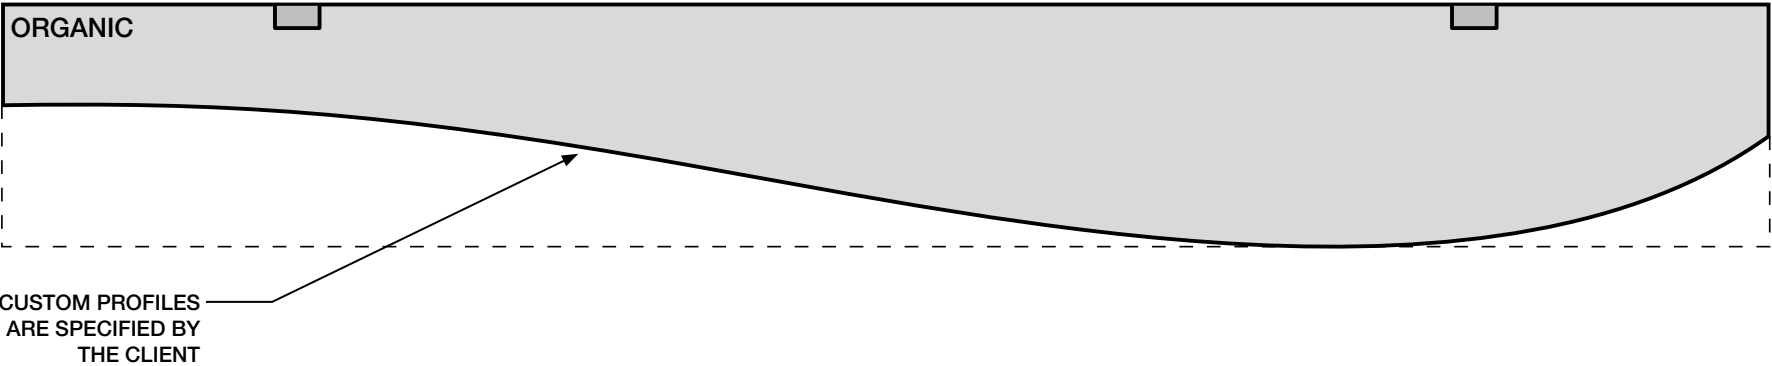

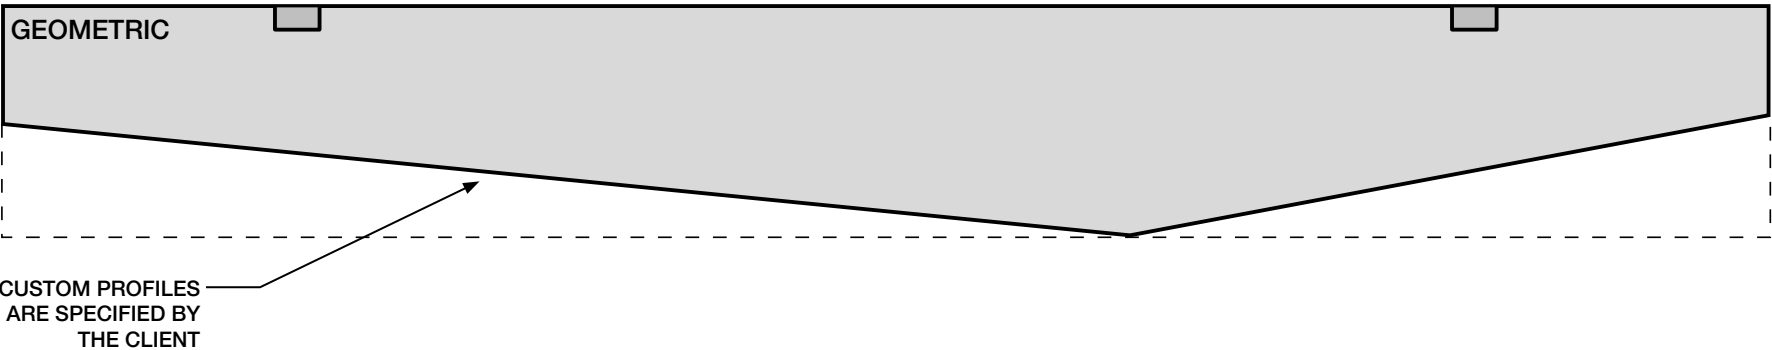

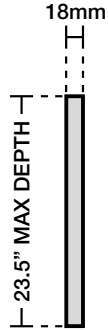

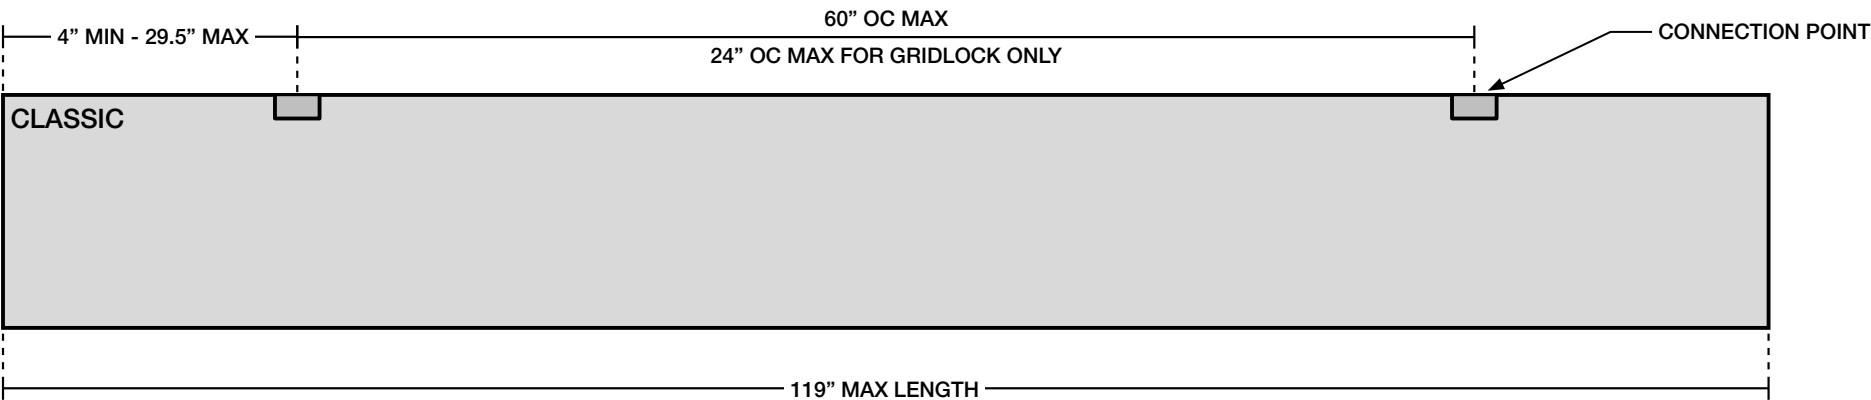

Please note, Geometric profiles are specified by the client. See "Custom Surface" page for more information.

Timber Organic

Organic layouts ebb and flows around the space.

Please note, Organic profiles are specified by the client. See "Custom Surface" page for more information.

BAFFLE TYPES

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

Custom Surface

Geometric & Organic

Organic flows or geometric forms, sculpt Timber to fit your space and vision.

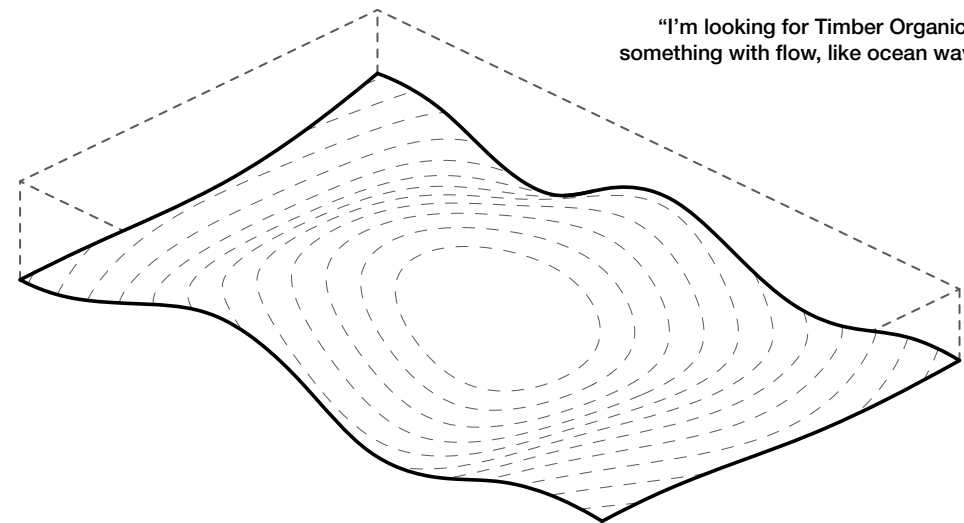

Client Surface

Have a custom surface you'd like to use Timber with? Send us a model and we'll take it from there.

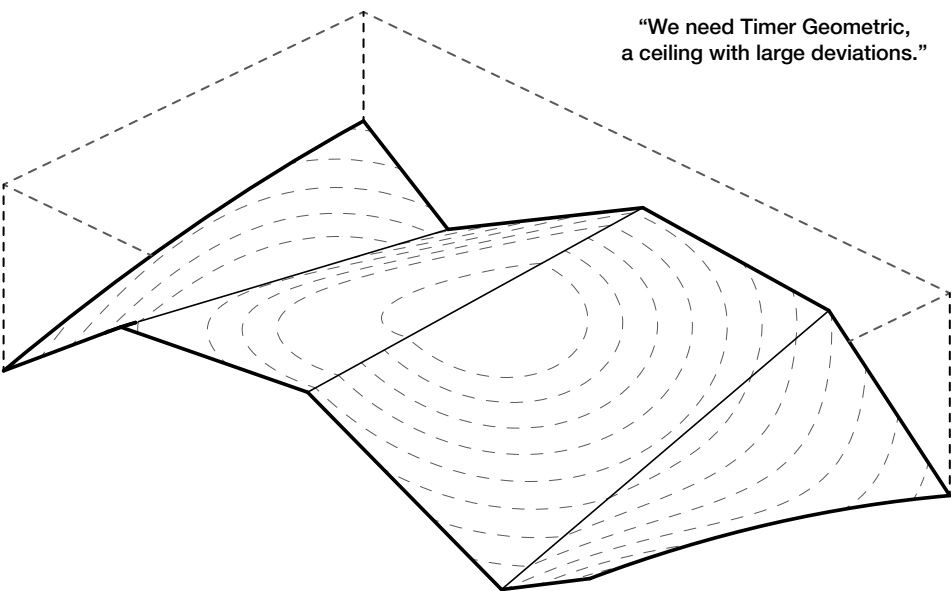

Turf Design Team

Send us a description of what you're looking for. Our designers will create something uniquely tailored to you.

EXAMPLE SURFACE

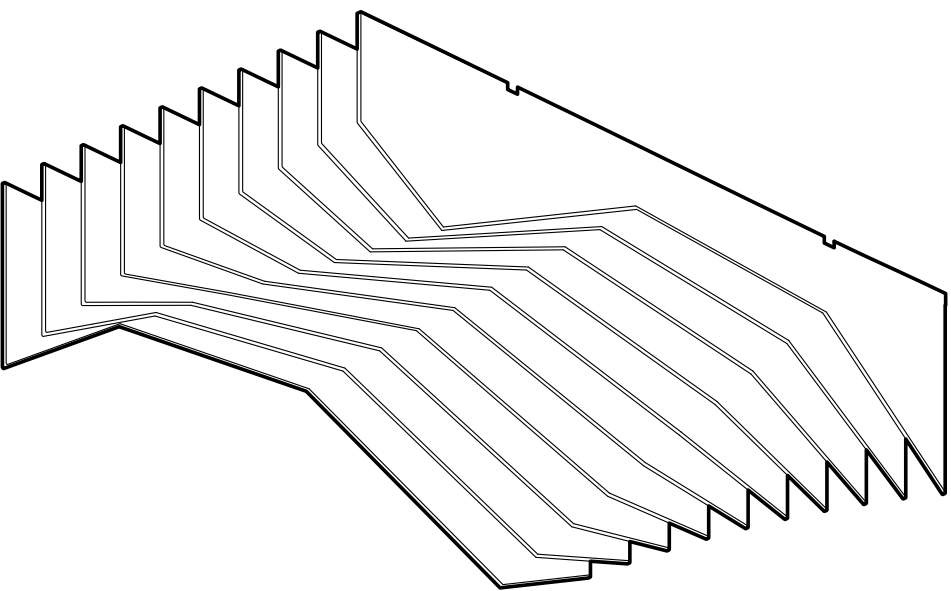

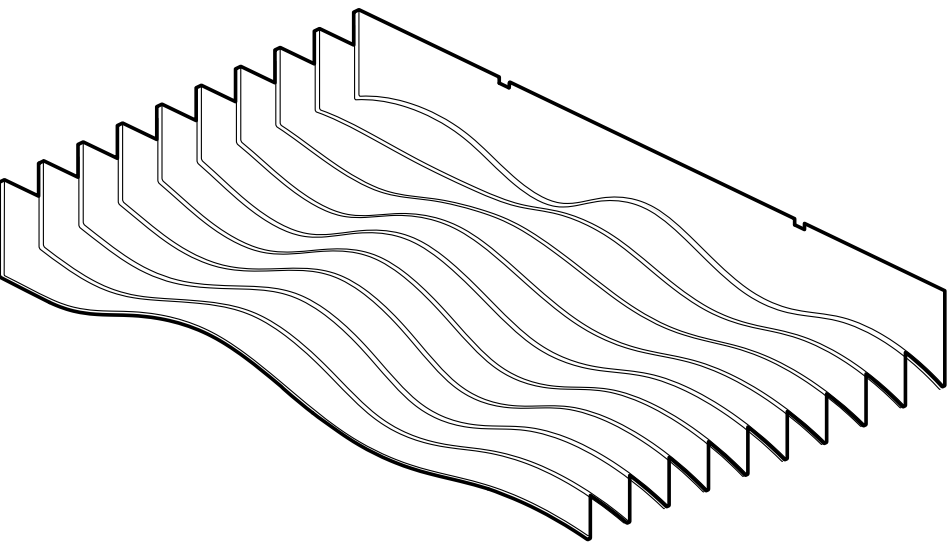

"I'm looking for Timber Organic, something with flow, like ocean waves."

"We need Timer Geometric, a ceiling with large deviations."

TIMBER BAFFLE GENERATION

Recommended Connections

FeltLock

Products with Turf’s patented FeltLock flex and compress to insert into Unistrut.

P1000T Unistrut, raw galvanized finish or powder-coated, hardware is required.

Painted unistrut may damage FeltLock installations and will void the product warranty.

Cable To Deck

Baffles with embedded cable grippers snap into deck-mounted aircraft cables.

10’ aircraft cable supplied by Turf should be trimmed in the field as needed.

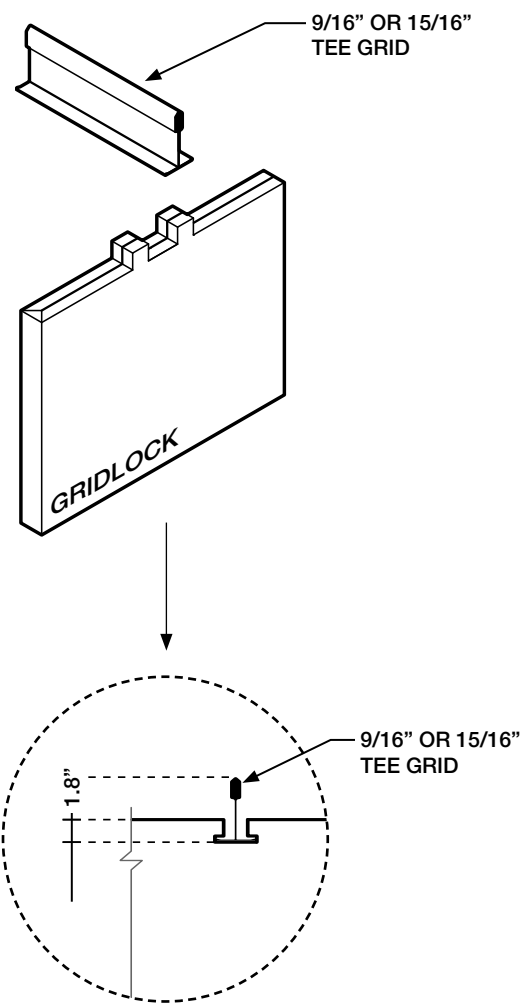

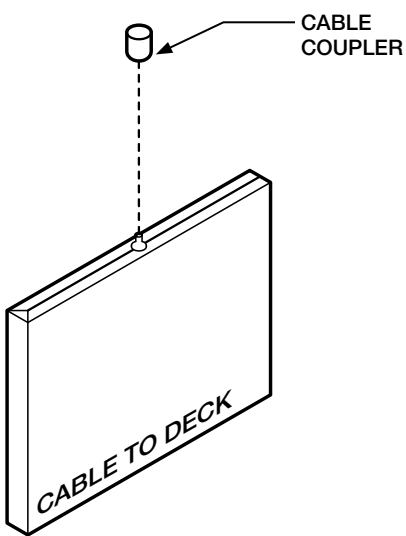

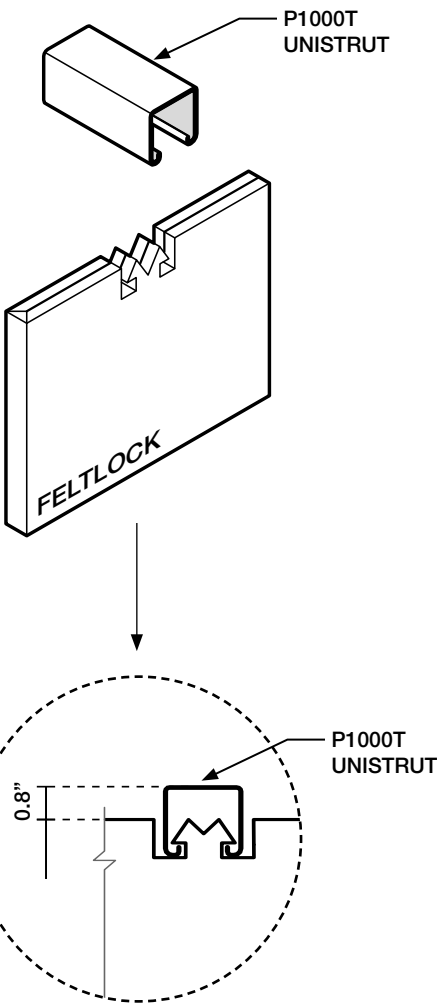

GridLock

The GridLock attachment flexes to grasp the tee grid. GridLock is incompatible with ACT tiles.

9/16” or 15/16” flat tee grid is required.

Please note, the maximum spacing for GridLock connection is 24” OC.

CONNECTION OPTIONS

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

Alternative Connections

Additional Options

Beyond our standard connections, we offer the following connection options for Timber Baffle too.

P1000T Unistrut

Cable to Unistrut
Threaded Rod to Unistrut

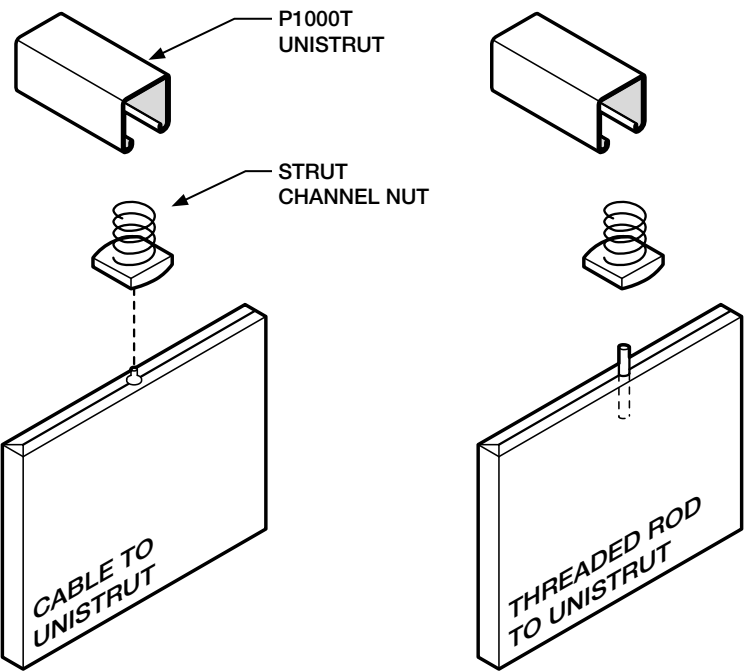

9/16" or 15/16" Tee Grid

Cable to Tee Grid
Embedded Nut to Bolt-Slot
Grid Clip

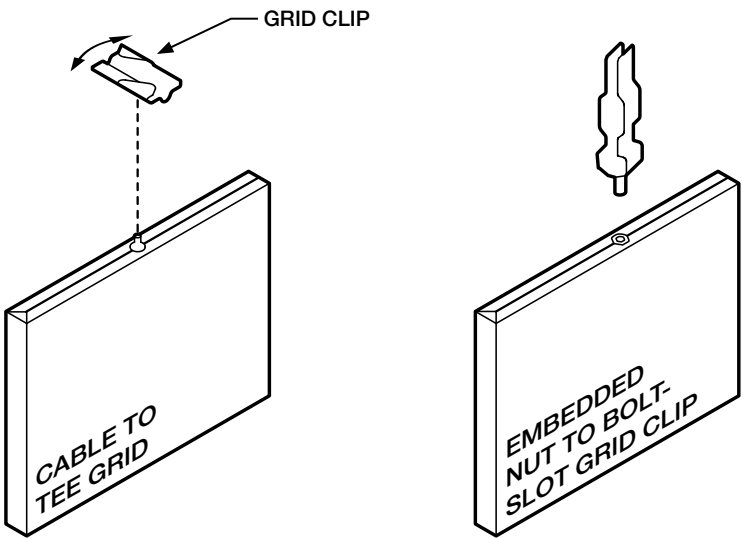

Miscellaneous

Embedded Nut
Threaded Rod

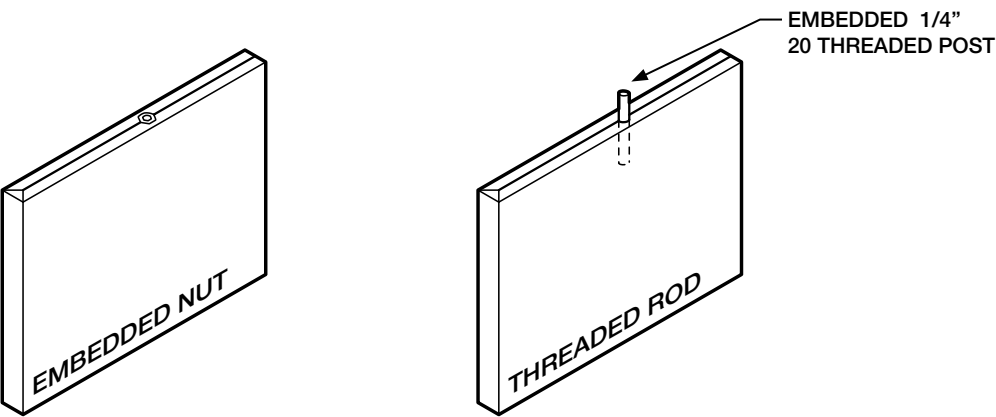

ALTERNATIVE UNISTRUT CONNECTIONS

ALTERNATIVE TEE GRID CONNECTIONS

ALTERNATIVE MISCELLANEOUS CONNECTIONS

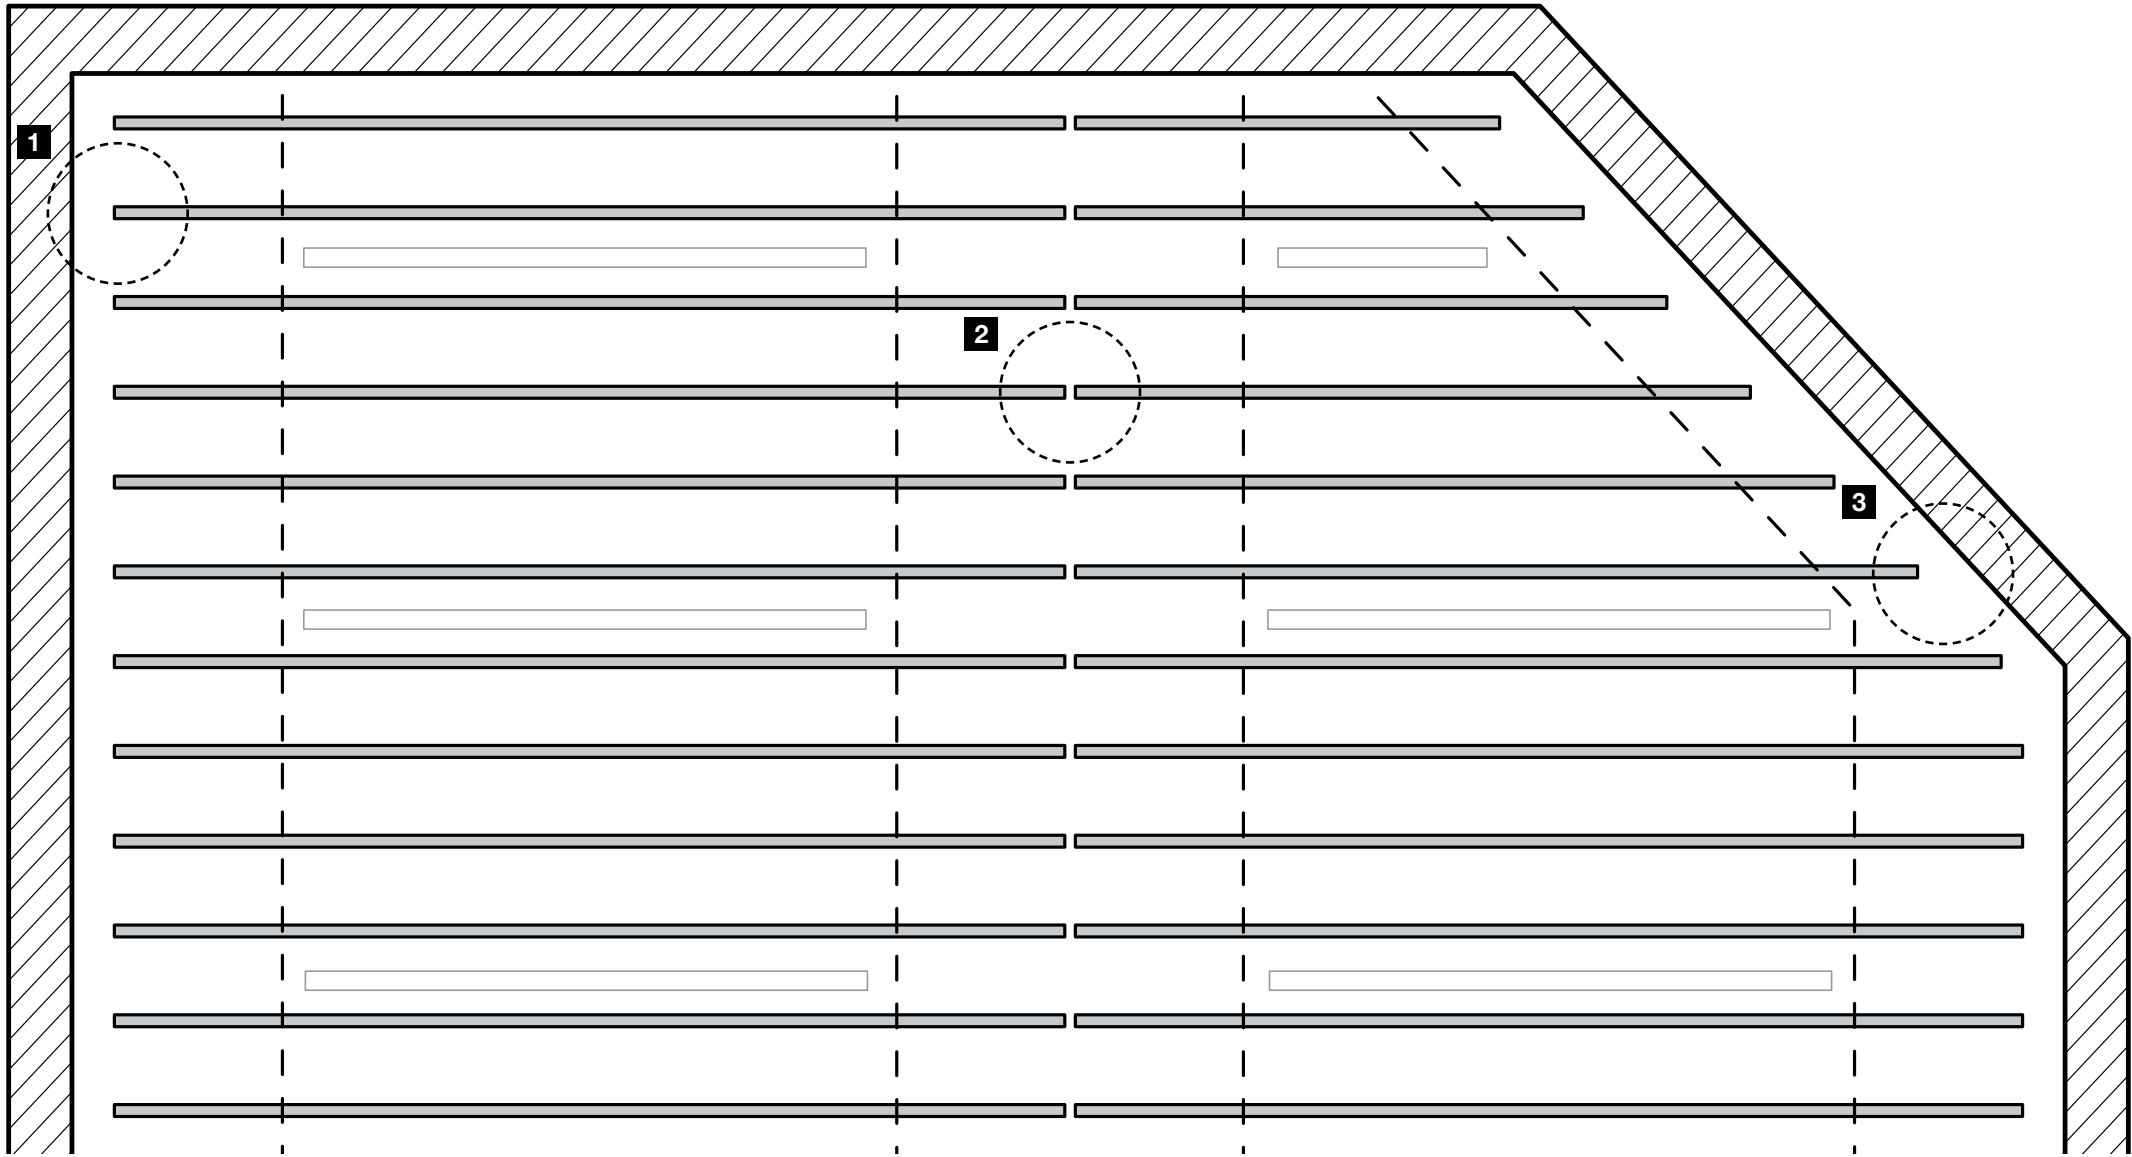

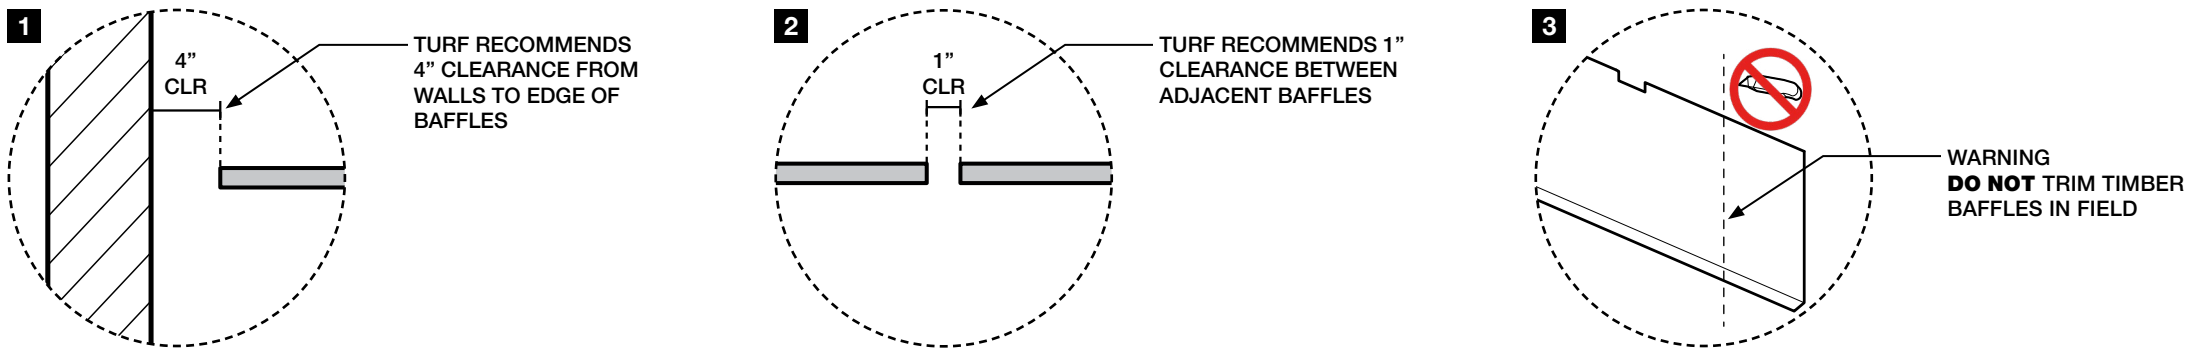

Layout Considerations

- Wall Clearance

Turf recommends a 4" clearance from the wall to our baffles.
- Adjacent Baffle Clearance

Turf recommends a 1" gap between all rows of baffles. This clearance supports a uniform look and build.
- Trim in Field

Timber Baffle cannot be trimmed in field, trimming would reveal seam and base felt color.

TIMBER BAFFLE - EXAMPLE RCP

Tech

Acoustics	ASTM C 423-17: Type J
Fire Rating	ASTM E-84 – Class A
VOC	ASTM D5116 Compliant

Details

Lead Time	Check the Turf website for current lead times.
Warranty	Five (5) years
Maintenance	Vacuum to remove any particulate matter and air-borne debris or dust. Compressed air can be used to dust the material in difficult to reach areas for large assemblies. Contact us for more information relative to spot cleaning.
Weight	Turf products cannot support the weight of any other items in field.
Trademarks	Turf®, FeltLock™, GridLock™, T™ are trademarks of Turf Design, Inc. and/or its affiliates © 2025 Turf Design Inc. Printed in the United States of America

Acoustic Rating

Timber Baffle NRC			
Depth	6" OC	8" OC	12" OC
7.5"	0.65	0.60	0.40
11.5"	0.85	0.75	0.55

The table displays information for an array of sound absorbing baffles suspended by cables, evenly distributed in four rows of four units.

9mm Colors

Introducing Hues, our new 9mm color palette designed for the senses.

The 9mm PET felt board is used as our primary construction material. Select one of our coordinating neutrals to blend in, or go for a contrasting element with one of our hues.

The process used to create PET felt often results in a heathered effect where multiple tones are present. Slight variations in color should be expected when using this sustainable material.

Felt Thickness
9mm +/-0.5 mm

Monitors and printers vary.
Please request a material sample to verify felt colors.

9mm Wood Grains

Invite nature into your space with our wood-inspired grains. Digital printing on felt ensures a unique and realistic grain with virtually no repeats.

There is an additional product cost for Wood Grains.

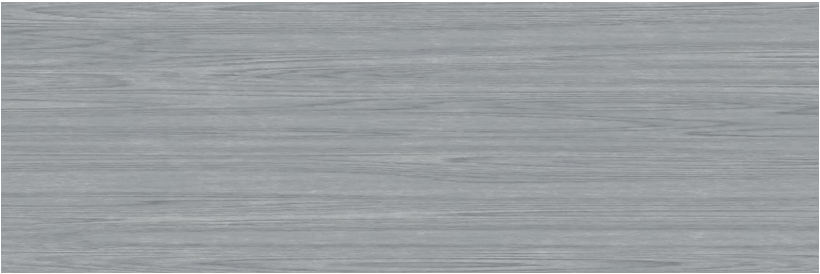

Please note there is additional lead time for custom matching. Grain customization will incur additional costs beyond our standard 9mm options.

9mm Wood Textures

Designed for those who go against the grain. Our digitally printed Wood Textures are inspired by wood veneer cuts and are designed to work with all 32 of our Hues. Flat, Rift and Rotary each represent a unique aesthetic that gives you range in your designs.

There is an additional product cost for Wood Textures.

Felt Thickness
9mm +/-0.5 mm

Visualization

Our Wood Textures are available on all of our 32 Hues. Select a texture and felt color, and let Turf do the rest. Please visit the Turf website for more examples and visualizations.

turf.design/colors

07 Black is the only substrate color that uses white ink when printing the texture.

Monitors and printers vary. Please request a material sample to verify felt colors.

9mm Stone Textures

Inspired by nature, designed for felt. Our digitally printed Stone Textures capture the character and nuance of stone on top of a curated color collection from our Hues palette with virtually no repeats. The three patterns in this family capture unique elements from the stones for which they are named.

There is an additional product cost for Stone Textures.

Turf has curated this collection to include only the best pattern and color combinations.
