

Ceiling Scape

Slice

Under the radar

Nest lights or frame a ceiling's best features with Slice. The tile's angular wedge design lets you create intriguing patterns everyone will want a piece of.

How To Specify

Key Information

Slice can carve through your space in a variety of ways. Consider these questions as you design your layout.

If shop drawings are required for your project, please follow steps 1 - 4.

Fast Track

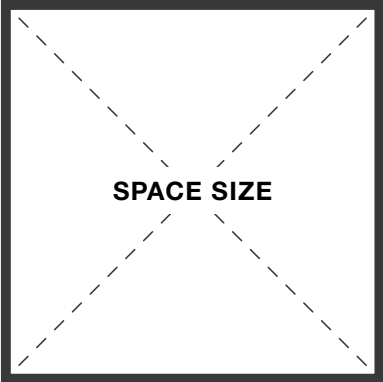

If you're looking to expedite your project, this product is available as Turf Fast Track!

Using Fast Track, our standard lead time for shop drawings is eliminated allowing the project to move directly into production.

Please note, installation and seaming drawings are not included in this process.

Turf recommends 10-15% additional tiles to cover overage / attic stock.

1

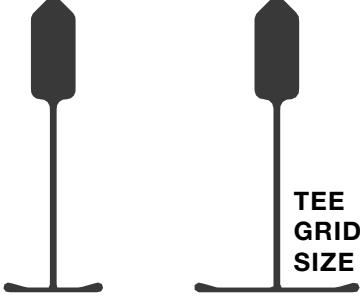

SPACE SIZE

What are the dimensions of the space?

PAGE 10

2

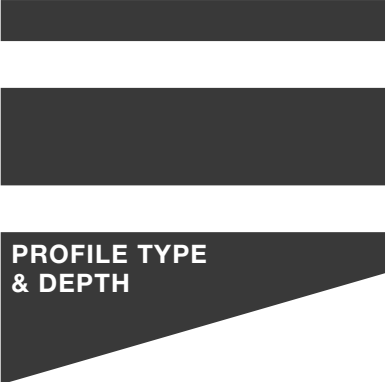

TEE GRID SIZE

What type and size of tee grid is being used?

PAGE 3

3

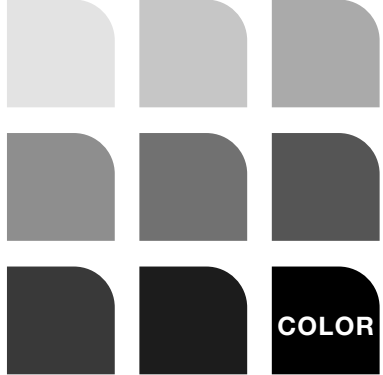

PROFILE TYPE & DEPTH

Which profile type and depth are you looking for?

PAGE 4-7

4

COLOR

What is the color?

PAGE 10

FAST TRACK

1. What tee grid type are you using?
2. What profile type do you need?
3. What baffle depth are you looking for?
4. What color are the baffles?
5. Do you want to include any additional product for overage or attic stock?

Dimensions

Standard Size	24" L x 24" W
Standard Depths	4"D, 6"D, 10"D, 12"D
Material Thickness	9mm
Profile Types	Geometric, Classic
	See Geometric Profile Types & Classic Profile Types pages for details.

Connection Options

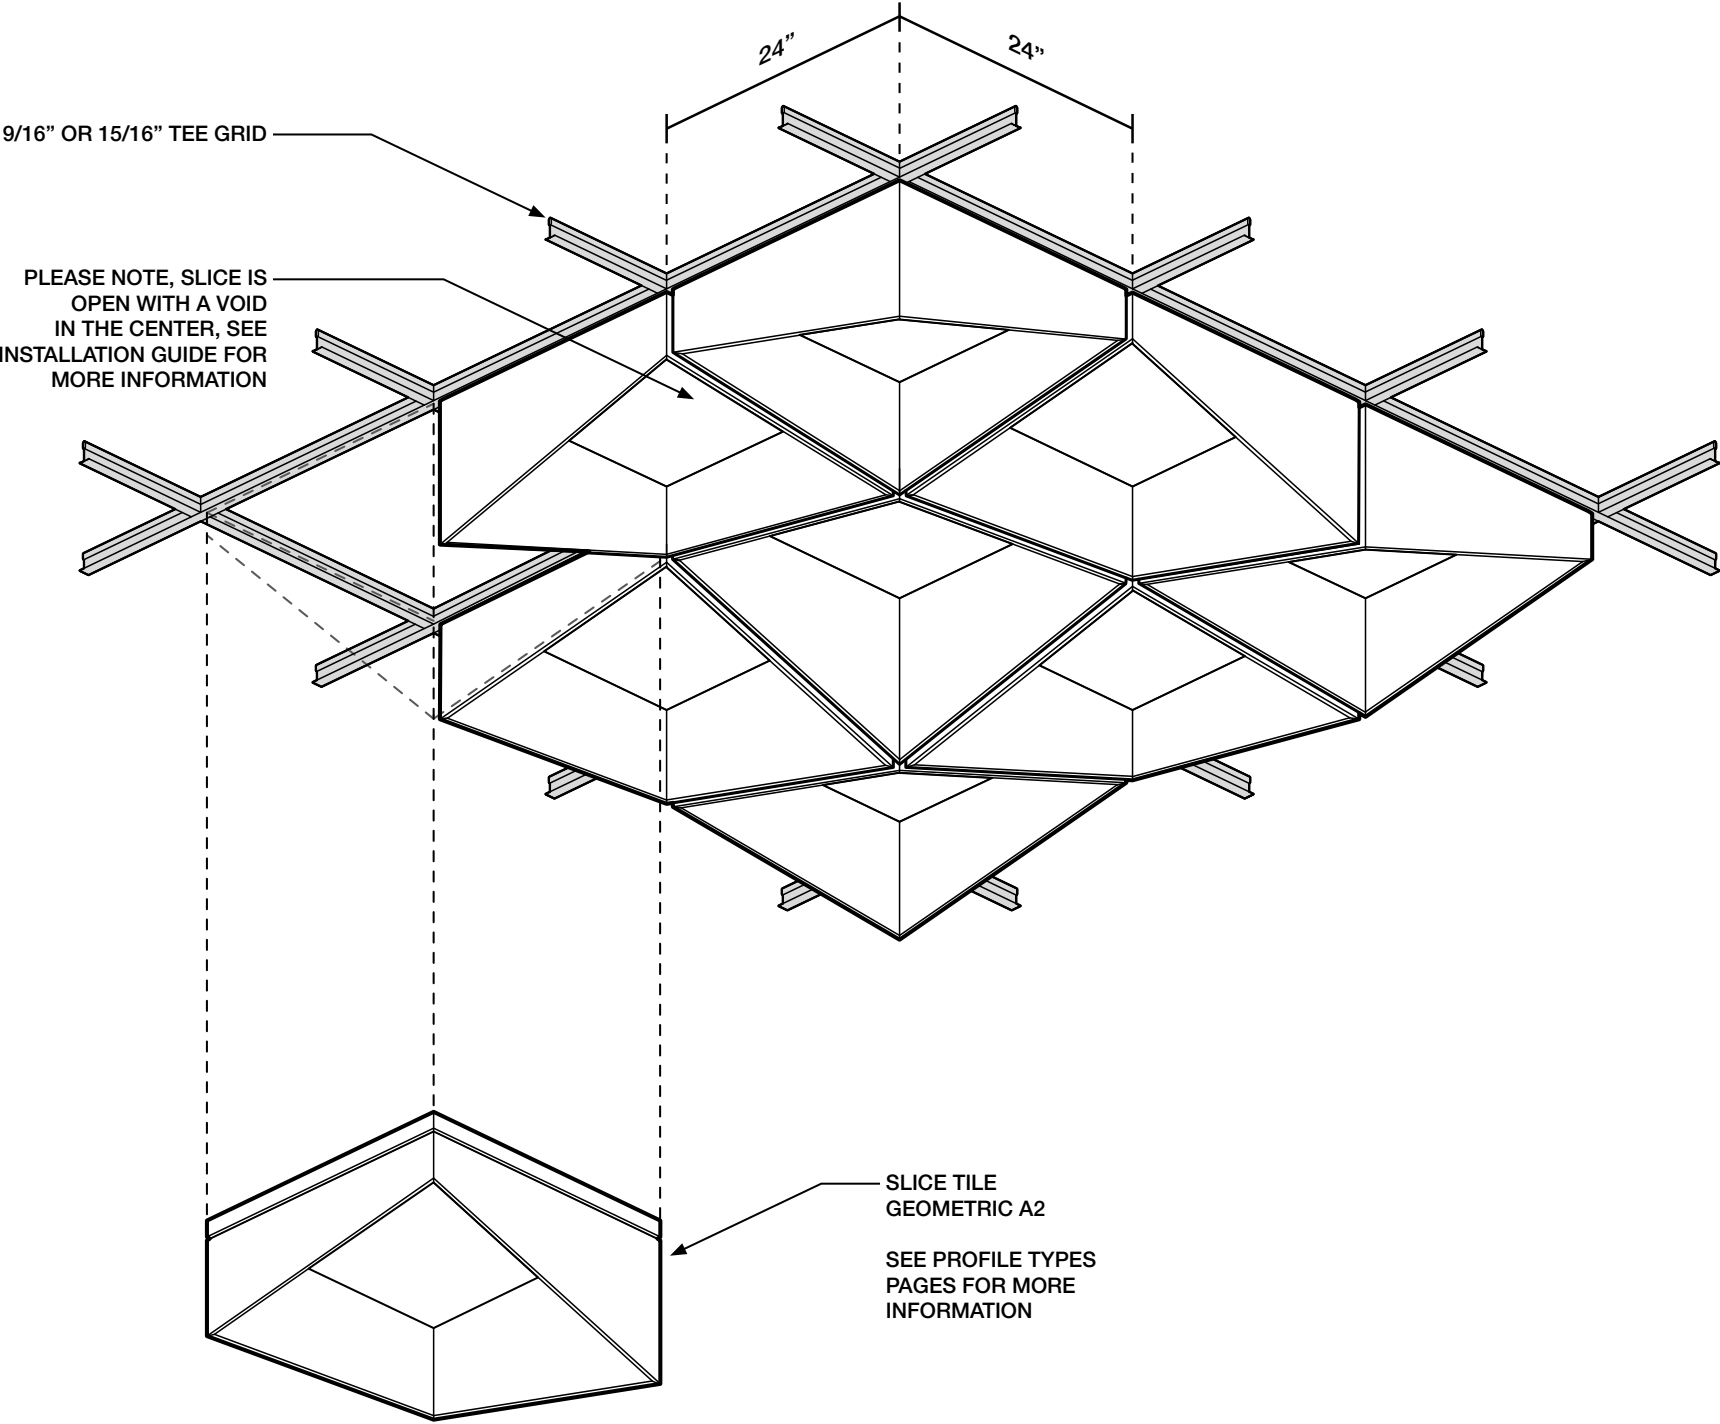

9/16" or 15/16" Flat Tee Grid	Friction Fit
9/16" Bolt Slot Tee Grid	See Installation Guide page for more information.

Color

9mm Palette	Slice can be specified in any of our 9mm felt colors.
-------------	-------------------------------------------------------

ACT Not Compatible

Alternatives	<p>Slice's Friction Fit connection is not compatible with standard ACT ceilings.</p> <p>See Switchblade for a similar aesthetic with ACT compatibility.</p> <p>turf.design/products/switchblade</p>
--------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

Geometric Profile Types

A1 & A2 Tiles

4"D Min - 12"D Max

Please note, A tiles should only be matched with other A tiles when creating a layout.

B1 & B2 Tiles

2"D Min - 6"D Max

Please note, B tiles should only be matched with other B tiles when creating a layout.

Black Arrows In Plan

Black arrows in plan view show varying depths at each tile point.

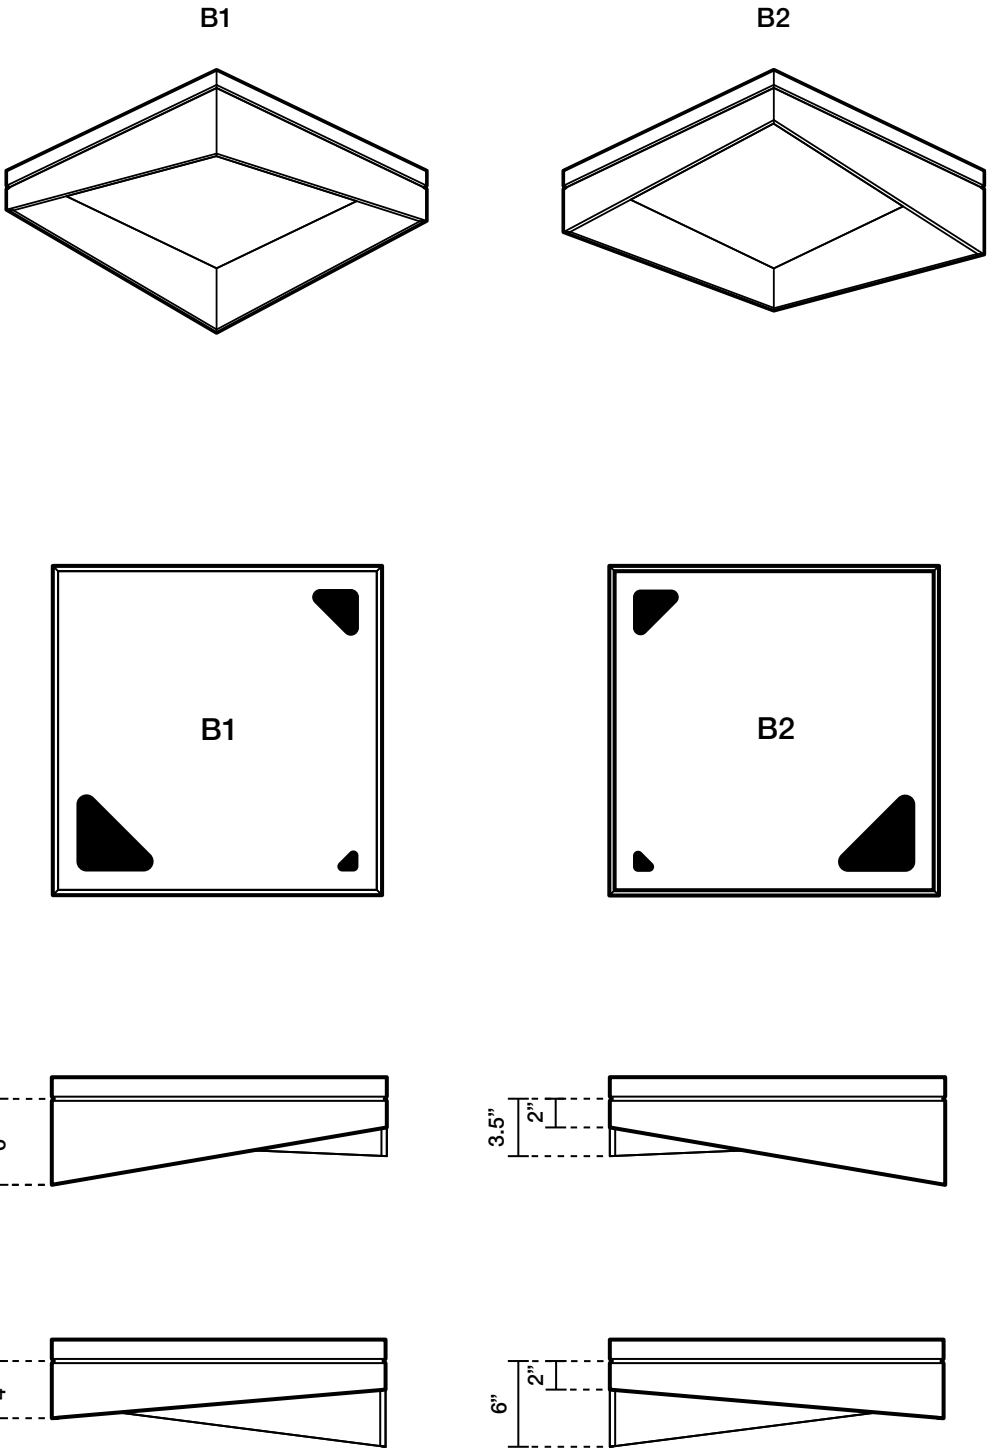

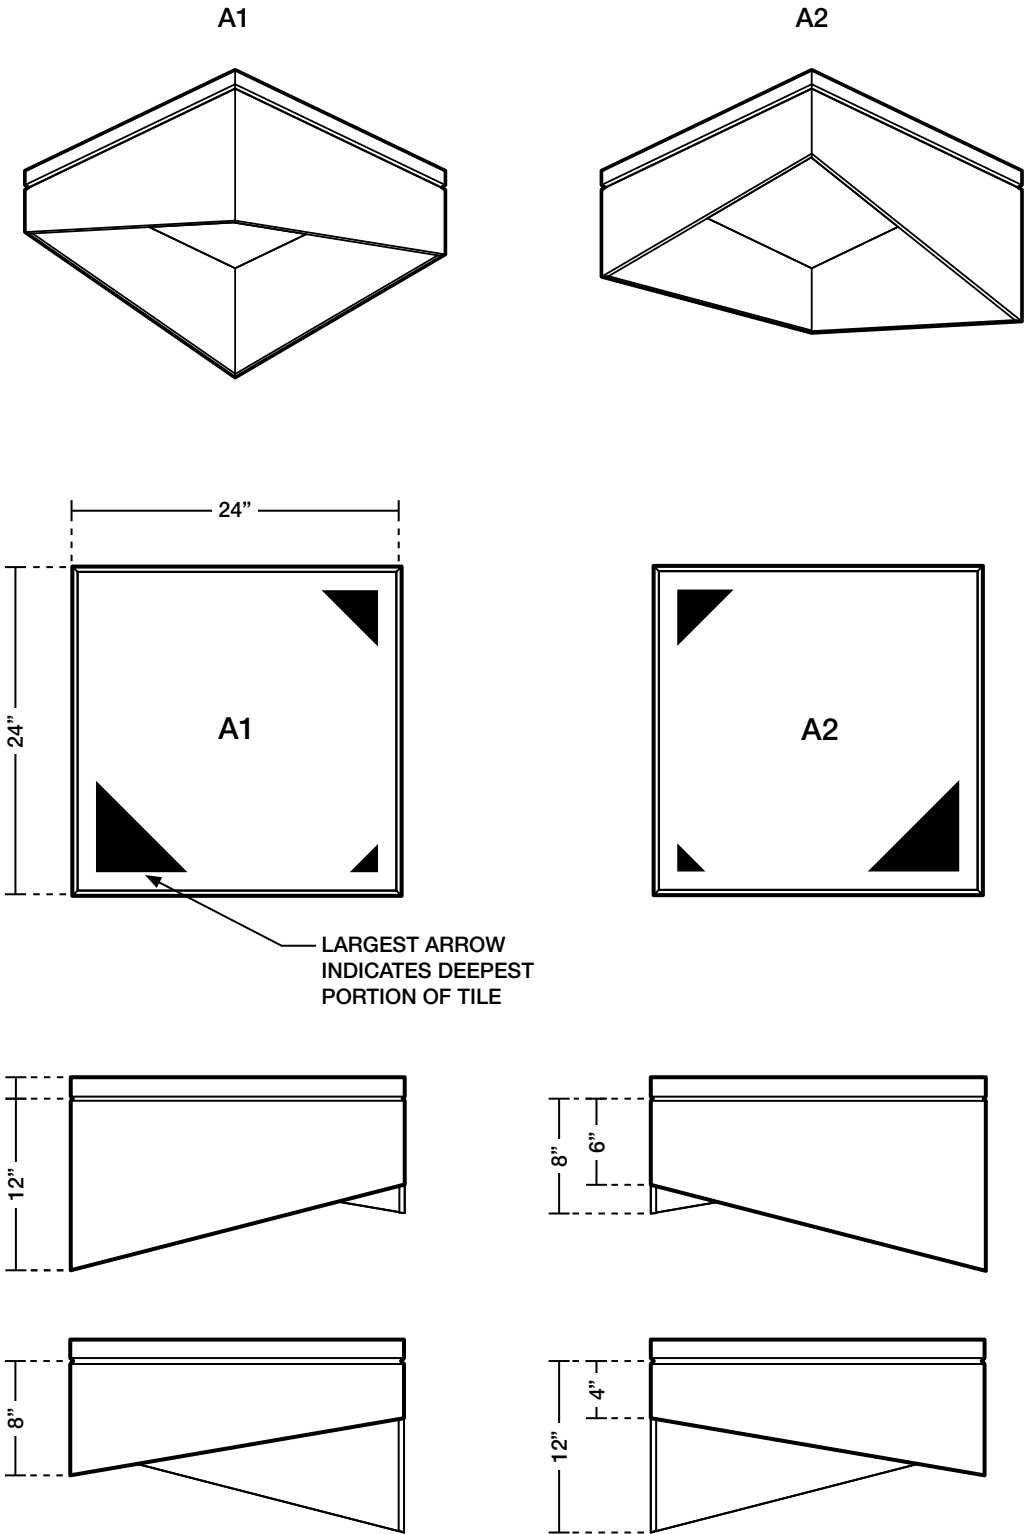

The largest arrow indicates the tile's maximum depth point. The blank corner shows the tile's minimum depth point.

Geometric Layouts

A Tiles

In the A Tiles Layout, sharp edges create geometric splendor. Hard lines amplify depth while preserving a flowy effect.

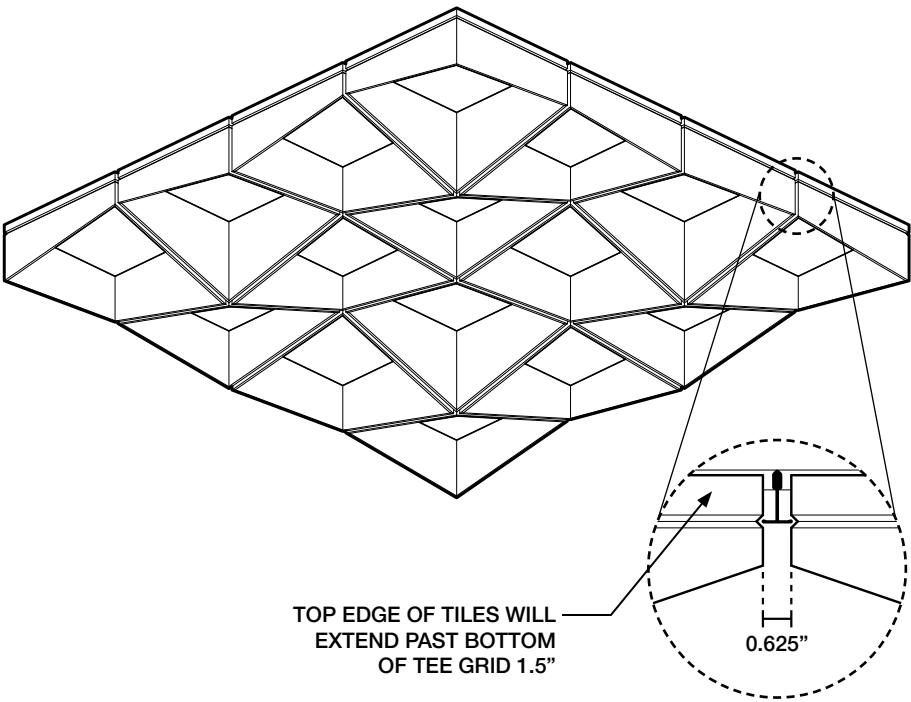

Please note, A tiles should only be matched with other A tiles when creating a layout.

B Tiles

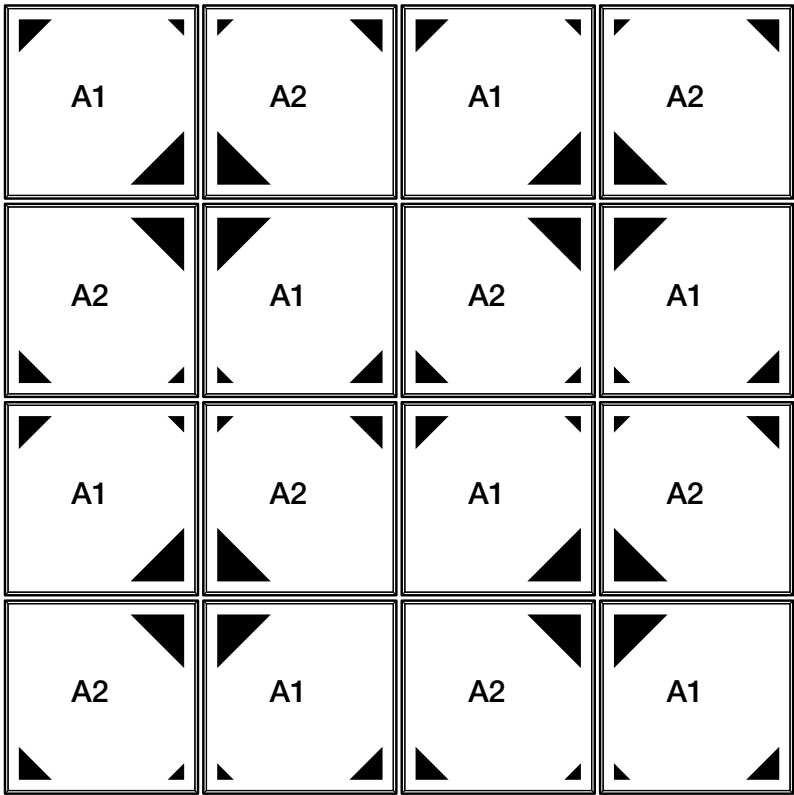

In the B Tiles Layout, the lower depth serves a scaled back look. This gentle geometric wave can roll through any space.

Please note, B tiles should only be matched with other B tiles when creating a layout.

A TILES PLAN VIEW

B TILES

B TILES PLAN VIEW

Classic Profile Types

C Tiles

10"D

C Tiles are the deepest profile option. Slice's most dramatic vertical drop.

D Tiles

6"D

D Tiles sit between deep and shallow profile options. Slice's happy medium in visual drama.

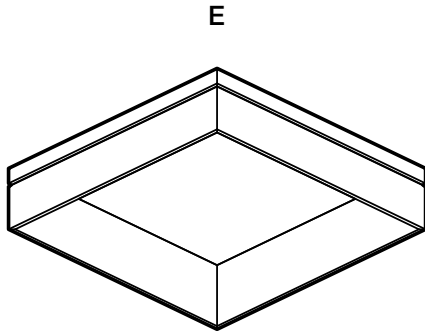

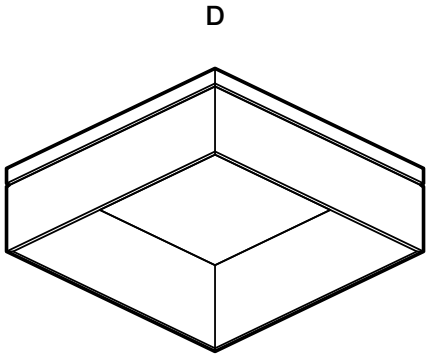

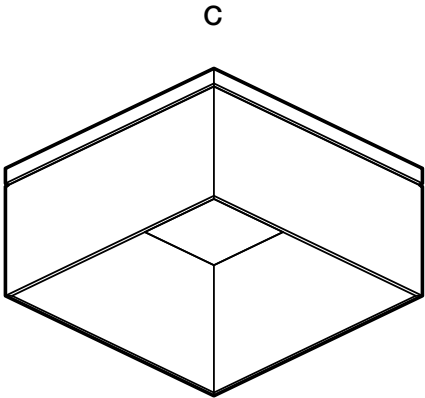

E Tiles

4"D

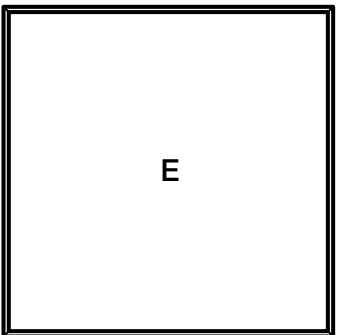

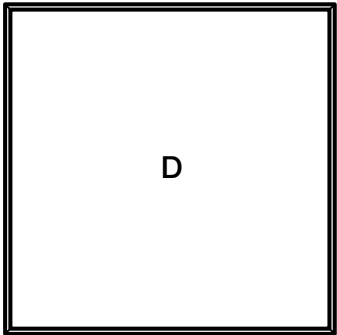

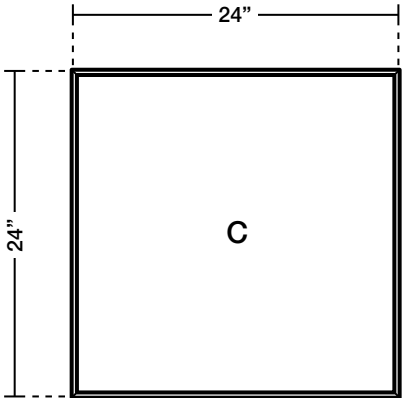

E Tiles are the shallowest profile option. Slice at its most minimal from top down.

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

Classic Layouts

- C Tiles

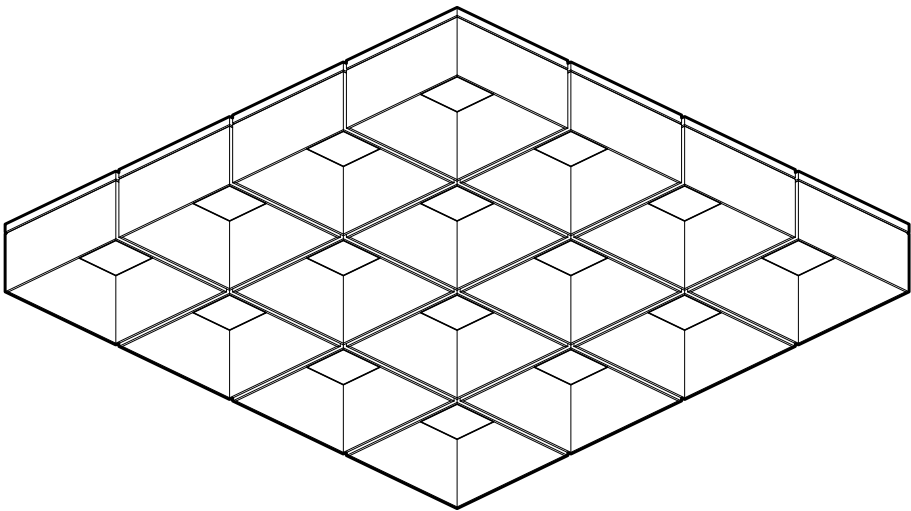

The C Tiles Layout offers a consistent look with the greatest depth. Create a seamless, standout visual effect.
- D Tiles

The D Tiles Layout offers a consistent look with medium depth. Create a look that hangs between shallow and deep.
- E Tiles

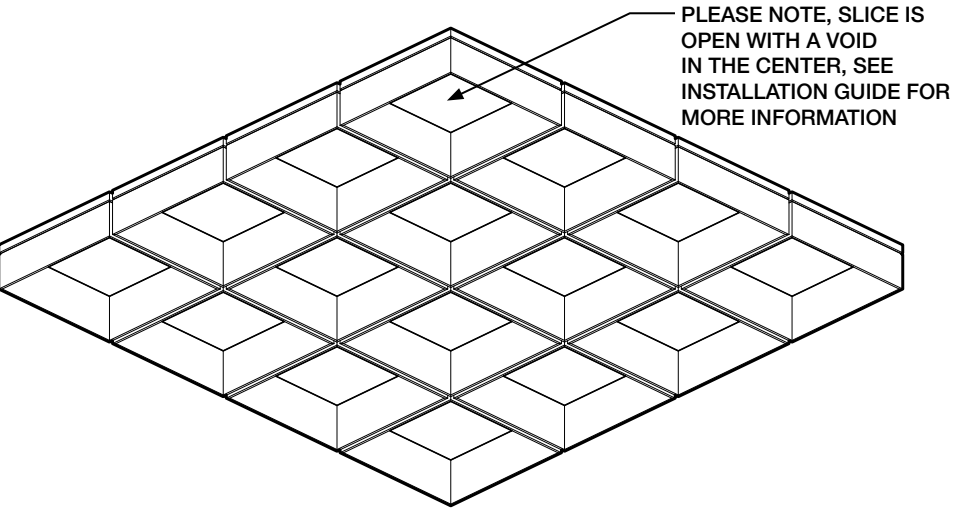

The E Tiles Layout offers a consistent look with the shallowest depth. Create a minimal look while still making a deep impact.
- Combination

The Combination Layout uses a mix of C, D, and E tiles, resulting in a dynamic look ranging in depth. Create an intricate ceiling that ebbs up and down.

Installation Guide

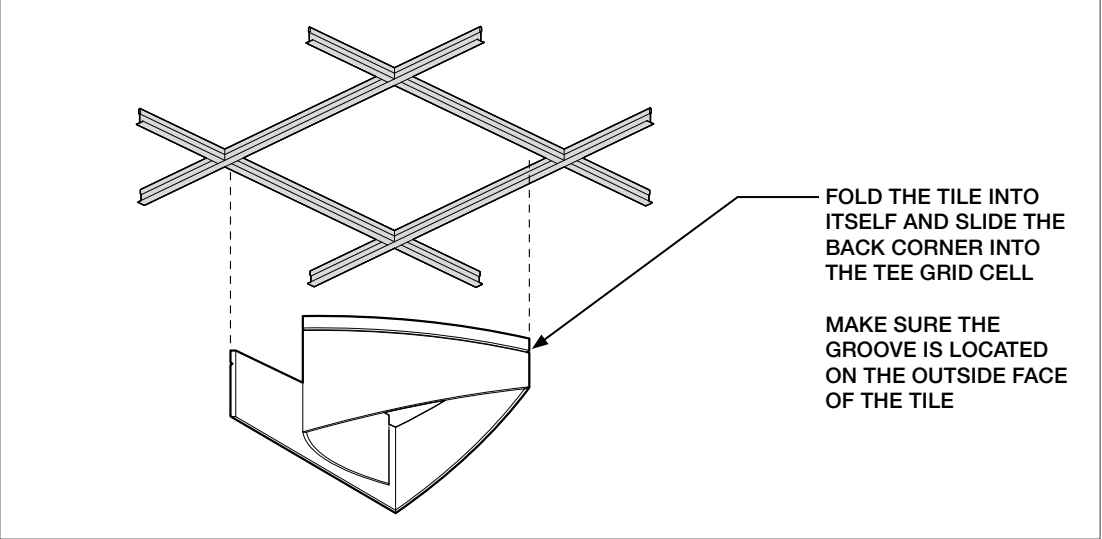

Slice ships flat. Requiring no additional hardware, it's a cost-effective option that's easy to install. This guide shows how friction-fit tiles lock into the tee grid.

Please note: standard Slice tiles cannot be trimmed in the field. Turf's Infill tiles can be trimmed in the field to accommodate a unique layout.

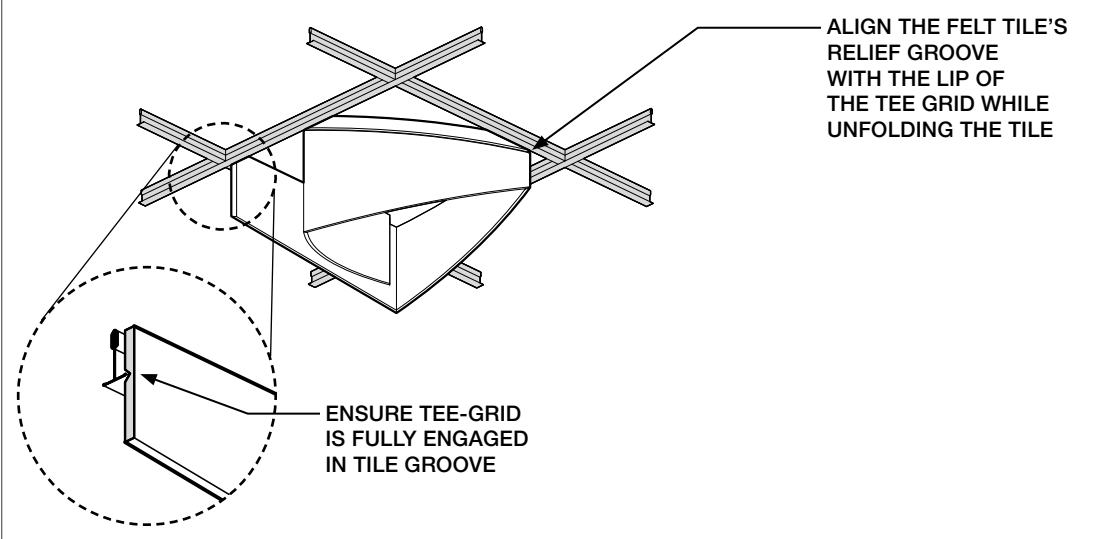

1 - FLAT PACK

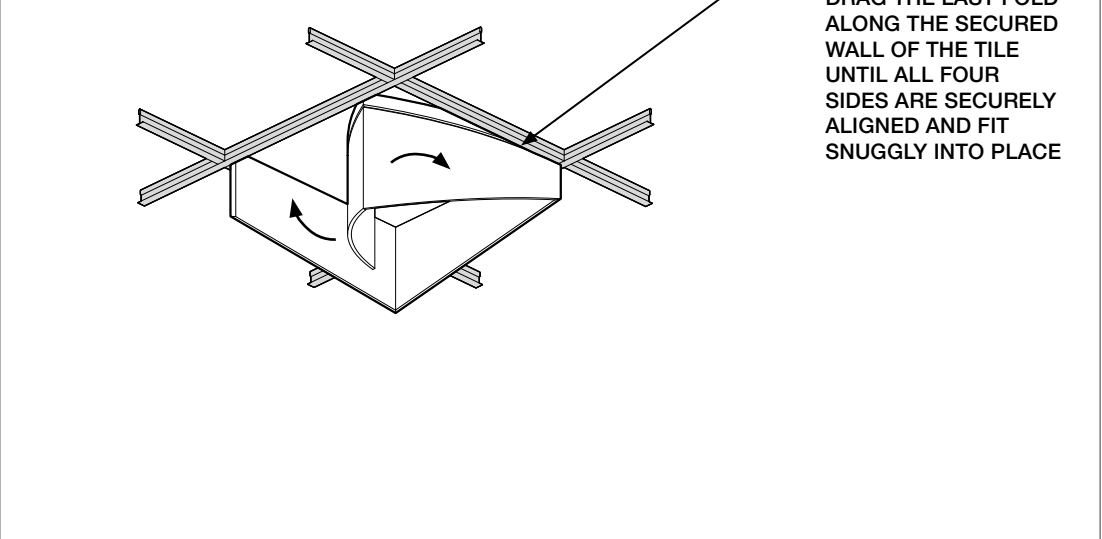

2 - FIT FOLDED TILE INTO GRID SPACE

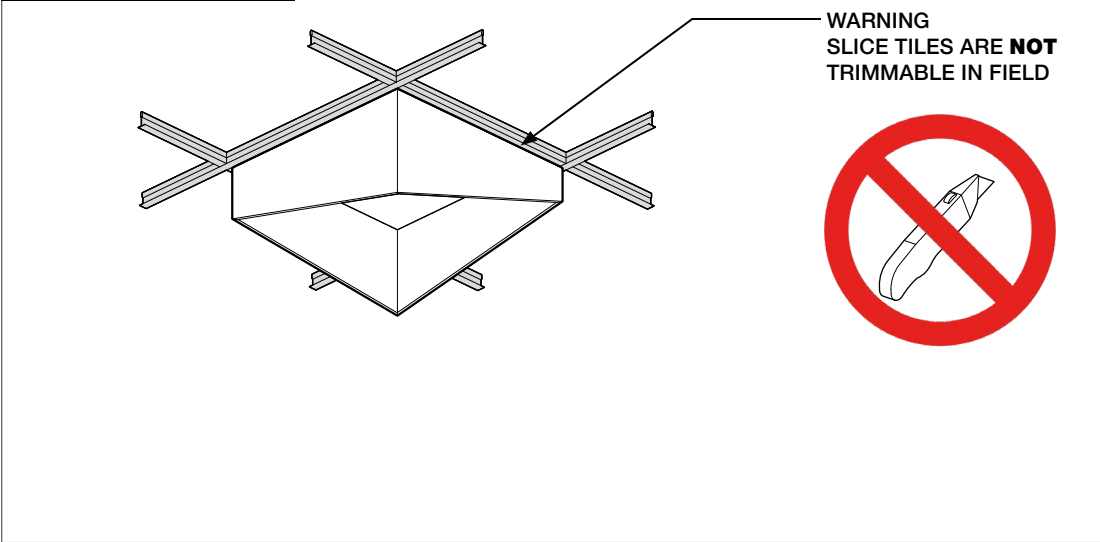

3 - ENGAGE ONE SIDE OF FOLDED TILE

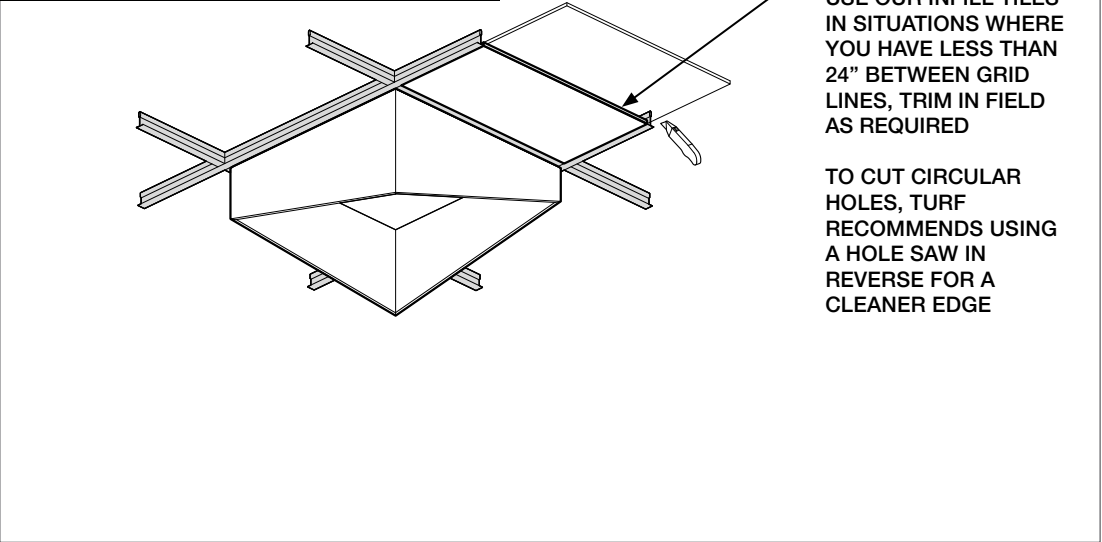

4 - UNFOLD TILE

5 - COMPLETED TILE

6 - TRIM INFILL TILES AS REQUIRED

Tech

Acoustics	ASTM C 423-17: Type J
Fire Rating	ASTM E-84 – Class A
VOC	ASTM D5116 Compliant

Details

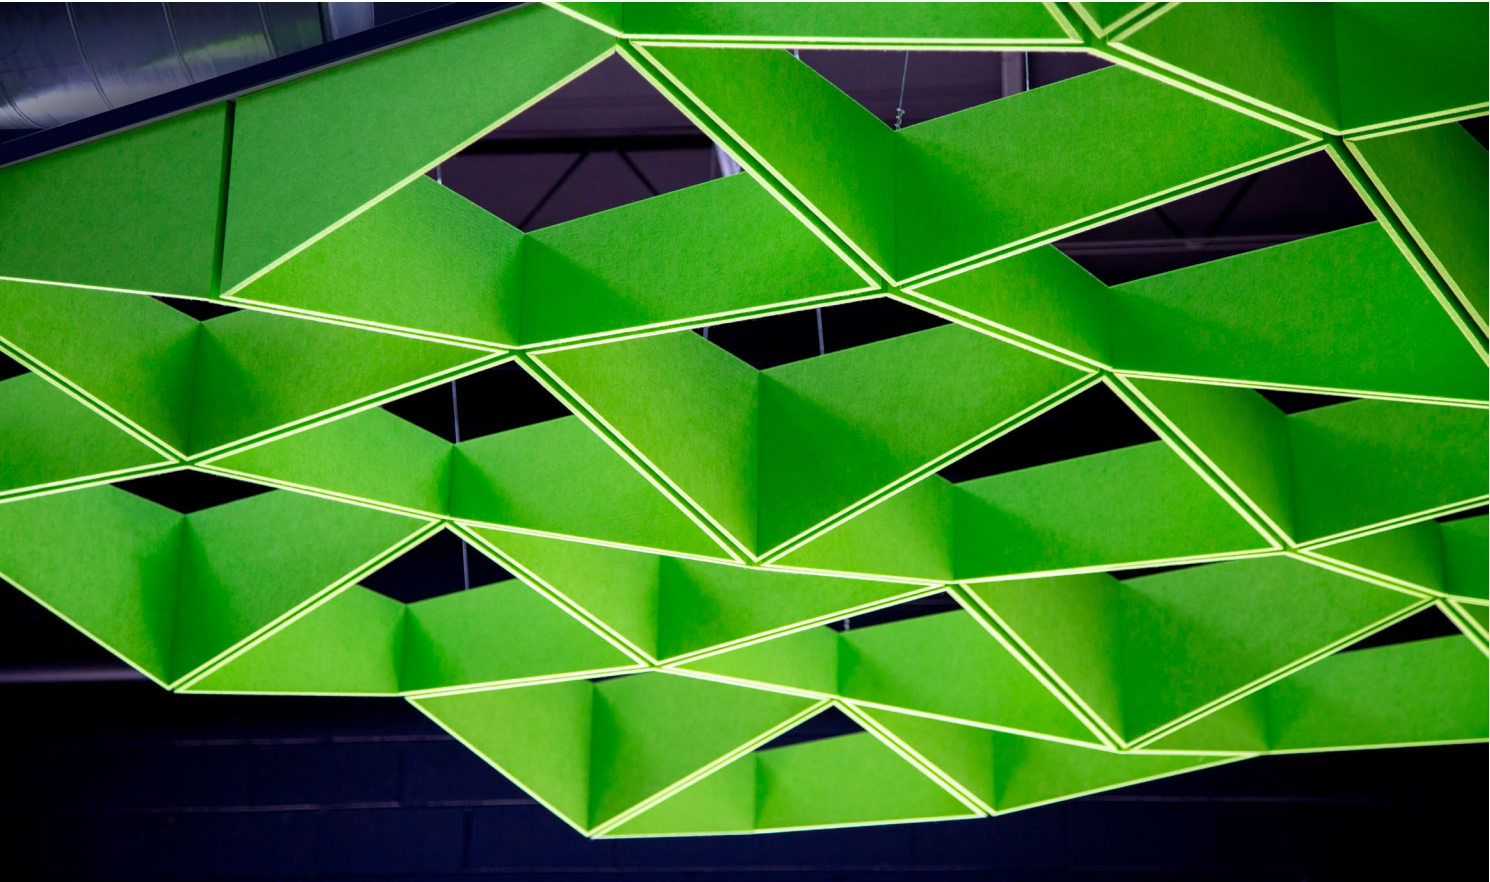

Lead Time	Check the Turf website for current lead times.
Warranty	Five (5) years
Maintenance	Vacuum to remove any particulate matter and air-borne debris or dust. Compressed air can be used to dust the material in difficult to reach areas for large assemblies. Contact us for more information relative to spot cleaning.
Weight	Turf products cannot support the weight of any other items in field.

Acoustic Rating

NRC = 0.85

NRC test reflects material testing. Specific product testing for Slice coming soon.

9mm Colors

Introducing Hues, our new 9mm color palette designed for the senses.

The 9mm PET felt board is used as our primary construction material. Select one of our coordinating neutrals to blend in, or go for a contrasting element with one of our hues.

The process used to create PET felt often results in a heathered effect where multiple tones are present. Slight variations in color should be expected when using this sustainable material.

Felt Thickness
9mm +/-0.5 mm

Monitors and printers vary.
Please request a material sample to verify felt colors.
