

Acoustic Ceiling Tile

# Arcade

## Modern Gothic

Vaulted ceilings, sacred sounds. Five different shapes form contiguous arches, invoking the tile's namesake. A toned-down take on Gothic architecture, toning out excessive noise.

# How To Specify

## Key Information

Arcade can arch its way through your space in a variety of ways. Consider these questions as you design your layout. If shop drawings are required for your project, please follow steps 1 - 6.

1

What are the dimensions of the space?

## Fast Track

If you're looking to expedite your project, this product is available as Turf Fast Track! Using Fast Track, our standard lead time for shop drawings is eliminated allowing the project to move directly into production.

2

What is the size of the tee grid?

PAGE 3

## Fast Track Notes

Installation and seaming drawings are not included in this process. Turf recommends 10-15% additional tiles to cover overage / attic stock.

3

What is the tile type?

PAGE 4

4

What is the proposed layout?

PAGE 5-7

5

How will Arcade Tiles mount to the ceiling?

PAGE 8

6

What is the color?

PAGE 13

1. Are you using 9/16" or 15/16" tee grid?
2. Which Arcade tile types do you need?  
See "Tile Types" page for details.
3. Are you using Magnetic Clip, Grid Clip or Torsion Spring connection?
4. What is the color of the tiles?
5. How many tiles do you need?
6. Do you need additional infill tiles?
7. Do you want to include any additional product for overage or attic stock?

# Dimensions

Standard Size	24" L x 24" W x 6" D
Standard Profiles	A, B, C, D, E
	See Tile Types page for more details.

# Connection Options

9/16" or 15/16" Flat Tee Grid	Magnetic Clips Grid Clips Torsion Spring
	See Connections page for more details.

# Color

5mm Palette	Arcade Tiles can be specified in any of our 5mm felt colors.
Tee Grid Color	Turf recommends coordinating the tee grid color with our 5mm tile color to account for flexibility in the material. For example, using black tee grid with M07 Onyx.

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

Tile Types

Design

Arcade comes in five standard tile types, each with its own unique profile pitch. Coordinate tiles to create a variety of dynamic ceiling aesthetics.

Plan View

All Arcade tiles have a minimum depth of 2" and a maximum depth of 6". In plan, black arrows and lines indicate the deepest portion of the tiles.

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

Typical Layouts

Uniform A      Using only A tiles, create a rhythmic series of arches.

Uniform D      Using only D tiles, create a series of subtle vaults.

Unique Layout      All Arcade layouts can be configured in many ways, beyond these examples.

In plan view, if the black arrows and lines match at their meeting points, the layout is viable.

UNIFORM A

UNIFORM D

UNIFORM A PLAN VIEW

UNIFORM D PLAN VIEW

BLACK ARROWS AND LINES INDICATE DEEPEST PORTION OF TILES

ALL DIMENSIONS NOMINAL UNLESS NOTED OTHERWISE

# Typical Layouts

Uniform E      Using only E tiles, create a rhythmic series of diamonds.

Mix D & E      Using a mix of D & E tiles, create a series of angled waves.

Unique Layout      All Arcade layouts can be configured in many ways, beyond these examples.

In plan view, if the black arrows and lines match at their meeting points, the layout is viable.

UNIFORM E

OF TILES

# Layout Considerations

## Wall to Ceiling Transition

A tiles can be used to create a smooth transition from wall to ceiling. This example uses A tiles in combination with C & D tiles to make a ceiling's edge seamless with the wall.

## Corner Ceiling Transition

A combination of Arcade A & B tiles can be used to create a perfect corner condition.

Arcade's depth coordinates well with both Urban 2 & Urban 6 tiles, as well as many other options. See Tile Coordination page for more details.

Connections

9/16" or 15/16" Tee Grid

Seismic Connection

Magnetic Clips  
Grid Clips  
Torsion Spring

If your project is located in a seismic zone, use our Torsion Spring connection.

MAGNETIC CLIP & GRID CLIP

MAGNETIC CLIP

GRID CLIP

TORSION SPRING

TORSION SPRING ASSEMBLY

TORSION SPRING LOCKED IN PLACE

**1** DRILL 1" SCREW THROUGH ONE OF THE PRECUT HOLES IN TILE

**2** PLACE LOOP CLAMP THROUGH CENTER OF SPRING AND USE WELD NUT TO HOLD ENTIRE ASSEMBLY IN PLACE

# Mounting Considerations

- Adhesive Strips

The adhesive strips are used to hide the exposed edge of the magnets.
- Knock Outs

Each side of the tile includes pre-cut knock outs in case magnets need to be moved during installation.
- Torsion Spring Assembly

The Torsion Spring mounting height can be adjusted in field.

Tile Coordination

Tile Line

Tiles within the same family or similar depths can work well together.

See Typical Layouts & Layout Considerations page for examples.

Infill Tiles

Plain, flat tiles can be used where field cutting is required to work around obstructions.

Infill tiles act like traditional lay-in ACT tiles. Magnets can be added upon request to hide the grid.

Infill Standard Size

24"L x 24"W x 14mm D

2" DEEP COORDINATION

4" DEEP COORDINATION

6" DEEP COORDINATION

# Trim Guide

Our tiles are designed to have a quick install, with modifications that are easily done in the field.

## Tools Required

SHARP BLADE

STRAIGHT  
EDGE

DRILL

HOLE SAW

### 1 - TRIM OR DRILL TILE FACE

TRIM OR DRILL TILE FACE TO  
ACCOMMODATE FIXTURES  
AND OBSTRUCTIONS

BECAUSE ARCADE TILES DO  
NOT HAVE A FLAT FACE,  
TURF RECOMMENDS USING  
URBAN TILES OR FLAT FILL WHEN  
CUTTING HOLES FOR FLUSH OR  
RECESS MOUNTED FIXTURES

\*PLEASE NOTE, TO CUT CIRCULAR HOLES TURF RECOMMENDS  
USING A HOLE SAW IN REVERSE FOR A CLEANER EDGE

### 3 - TRIM TILE TO FIT - TORSION SPRING

TRIM TILE AS REQUIRED  
TO FIT SPACE

TURF RECOMMENDS TILE  
MAINTAIN MINIMUM OF TWO  
CONNECTIONS POINTS FOR  
TORSION SPRING, MOVE  
SPRINGS AS REQUIRED

### 2 - TRIM TILE TO FIT - MAGNETIC OR GRID CLIPS

TRIM TILE AS REQUIRED  
TO FIT SPACE

MAGNETS OR CLIPS  
CAN BE MOVED AS  
REQUIRED. ADDITIONAL  
MAGNETS OR CLIPS CAN  
BE ADDED IN FIELD.

TURF RECOMMENDS TILE  
MAINTAIN MINIMUM OF THREE  
CONNECTIONS POINTS FOR  
MAGNETIC CLIPS OR GRID CLIPS

### 4 - TRIM OR DRILL INFILL TILE

TRIM OR DRILL TILE TO  
ACCOMDATE FIXTURES  
AND OBSTRUCTIONS

\*PLEASE NOTE, TO CUT CIRCULAR HOLES TURF RECOMMENDS  
USING A HOLE SAW IN REVERSE FOR A CLEANER EDGE

Tech

Acoustics	ASTM C 423-17: Type E-400
Fire Rating	ASTM E-84 – Class A
VOC	ASTM D5116 Compliant

Details

Lead Time	Check the Turf website for current lead times.
Warranty	Five (5) years
Maintenance	Vacuum to remove any particulate matter and air-borne debris or dust. Compressed air can be used to dust the material in difficult to reach areas for large assemblies. Contact us for more information relative to spot cleaning.
Weight	Turf products cannot support the weight of any other items in field.

Acoustic Rating

NRC = 0.90

The rating above describes an array of mixed ceiling tiles arranged in four rows of four units.

# 5mm Colors

Turf’s compression molded ceiling tiles are made with 5mm PET felt.

The process used to create PET felt often results in a heathered effect where multiple tones are present. Slight variations in color should be expected when using this sustainable

**Felt Thickness**

5mm +/-0.5 mm

Monitors and printers vary. Please request a material sample to verify felt colors.
