

Case Study: North America

North America – Single-Run Record
100% recovery of a 450-foot core
in a single run

RECOVERED
451 FT OF CONTINUOUS
FORMATION
A NORTH AMERICAN RECORD

A SECOND RUN
RECOVERED 242 FT
TOTALING
693 FT OF CONTINUOUS
CORING

“GREAT CREW
REALLY PROVED TO KNOW
WHAT THEY ARE DOING.”

Challenges

- Cut 690 feet of continuous core in as few runs as possible
- Recover 100 percent of the desired core length
- Ensure that the coring operation does not get stuck

Solution

- RockStrong™ coring system
- FC3000 series core heads
- DatCISM solution development

Results

- Successfully cut 693 feet of core in two runs
- Provided 100 percent recovery of desired core length
- Achieved North America single-run record of 451 feet
