

## Segmented Cutter

The Halliburton Segmented Cutter series is designed for efficient pipe recovery operations, offering reliability and ease of use. We provide a variety of sizes for a range of applications, from 4-1/2 to 7-5/8 in. for all your casing recovery needs.

The cutters are shipped disassembled for cost-effective transportation and storage, and are easily assembled at the wellsite to save you time at the rig.

### Benefits

- Provides ease of transportation as Class 1.4d for cargo aircraft shipping
- Helps improve wellsite safety with the RED® Rig Environment Detonator for maximum security
- Provides cost savings due to conveyance flexibility, which can run on
  - Electric line
  - Slick line
  - Coil tubing
- Conforms to APR RP-67 regulations
- Easy wellsite assembly saves you expensive rig time

### Features

- Compatible with existing hardware
  - Firing heads
  - Extension mandrels
  - Initiators

### RED Detonator for Maximum Safety

RED products do not contain primary explosives and are insensitive to many common electrical hazards found at the wellsite, including RF communications, welding and cathodic protection. This helps improve wellsite safety and allows normal rig operations to continue uninterrupted during pipe recovery.
