Dear Paul,

It was a pleasure to see you again at the recent Global Wellness Summit.

First, I wanted to thank you and your extraordinary team for their hospitality, professionalism and over the top commitment in the midst of a pandemic. We were all so impressed at the positive “can do” attitude from all The Breakers team members we encountered.

You have truly created an enviable seamless workforce that understands the value of enhanced guest engagement, especially during stressful times when guests are looking for a safe haven.

Next, the Covid-19 related public health preparedness I witnessed throughout The Breakers property was second to none and clearly can be described as best in class.

In short, because of your attention to detail and partnership with the Global Wellness Summit, we were able to demonstrate a pandemic “new normal” by safely bringing together global leaders in a hybrid model to share essential aggregated wellness information that is desperately needed during these stressful times. I look forward to my next visit to The Breakers.

Most Sincerely,

Richard Carmona, M.D., M.P.H., FACS
17th Surgeon General of the United States
