SURE Trend ✓ TRACKING SOFTWARE

Community Hospital ATP Cleaning Verification Report
Hygiena SureTrend Auto-Report

- ✓ **TRACK TEST RESULTS**
- ✓ **QUICKLY IDENTIFY PROBLEM AREAS**
- ✓ **ANALYZE CLEANING EFFECTIVENESS**
- ✓ **AUTOMATICALLY GENERATE REPORTS**
- ✓ **FACILITATE CONTINUOUS IMPROVEMENT**

BENEFITS

- • Free upgrades
- • No licensing fees
- • Unlimited technical support
- • Fraud-proof data protection
- • Localized data storage
- • Password protection
- • PC/Windows Software

HOSPITAL HYGIENE IN YOUR INBOX

SureTrend automatically e-mails charts and reports to as many recipients as you wish.

40+ PRE-SET REPORTS

Customizing charts and reports is only a few clicks away. With dozens of pre-set reports, managers can start analyzing data immediately.

GLOBAL LOCATION DIRECTORY

Infection Control and EVS can collaborate to create a master list of locations to be tested in a hospital system and share that list with any user in their network.

NETWORK YOUR GROUP

SureTrend may be installed on a network server to link devices, departments, or even hospitals.

MORE MEANINGFUL HUDDLES

Use the charts and graphs generated by SureTrend as visual aids to illustrate a problem, motivate team members, and work towards a common goal.

TEST PLAN RANDOMIZATION

Randomization offers truly statistical coverage for facilities that wish to monitor 100% of locations over time without testing every location daily.
