

Chime Live

Seamless Hybrid and Virtual Experiences

Transform your next event with the **Chime Live platform**, built to drive engagement whether your attendees are joining onsite, online or in combination. Our full-service solution starts with understanding your event goals and stakeholder needs. Then we customize Chime Live to tell your story, highlight what's important and drive engagement to deliver the outcomes you need — before, during and after your event.

Chime Live Highlights

Drive Engagement

Focus attendees on what they need to see or do in the platform. Push slides and pop-up interactive polls, Q&A and more — right on cue.

In-Person & Remote

Everyone can participate in the session via their own devices, or provide iPads to in-person attendees for an elevated second screen experience.

Personalize Journeys

Create segmented or integrated experiences, including the ability to move remote participants to the right sessions.

Flexible

Enhance in-person meetings and virtual, hybrid, multi-venue and hub/spoke productions.

Customizable

Enhance your platform with branding, design, and virtual lobby options.

Connectible

Broaden accessibility with Wordly AI Translation integration or start conversations in Chime Forums.

Practical

Share important content and resources (e.g., venue/location information, pre-event reading, post-event knowledge checks and more).

Monetizable

Extend the experience and augment event ROI with sponsor and exhibit areas.
