

Understanding Audio: MICROPHONES

Choosing the right microphone for your event can be overwhelming. Let us guide you in choosing the best solution to match your event objectives, speaker needs, and room layout.

PODIUM MIC

A wired gooseneck style mic that is fixed at the podium.

GOOSENECK PANEL MIC

A wired gooseneck style table top mic with a button to turn it on and off. Works well for panel discussions.

WIRELESS MICS

A small lav microphone attached to the presenter's clothing or a headset mic, allowing freedom of movement.

WIRELESS HAND HELD MIC

A wireless mic that can be held independently or clipped onto a mic stand. Great for Q&A.

CONFERENCE MIC SYSTEM

A self-contained mic system utilized for large group discussions that is designed to help moderate and eliminate feedback.

CATCH BOX MIC

A soft throwable mic designed to add a fun element to Q&A sessions. Can also be customized with branding.
