# AI-powered Translation Services

## to increase event accessibility

Encore offers affordable, AI-powered solutions to make events more accessible to multilingual guests and people with hearing loss. Break the language barrier with near simultaneous AI translation services for over 50 languages. Real-time audio translations and translated captions make presentations more inclusive.

## Benefits of AI Translation services:

- **Ease of use:** Participants can access AI translation services via their own devices.

- **Customization:** Train our AI-powered engine to recognize terms and acronyms unique to your event or industry.

- **Affordability:** Best option for events on a budget.

- **Seamless technical support:** Trust our team to provide white-glove service and onsite troubleshooting.

## We can provide:

- AI translated live text transcripts on attendees' personal devices.

- AI generated audio translation on attendees' personal devices.

- Side-stage captioning displays

- Integration with event apps and platforms, including Chime

- End-to-end event technology support
