

AI Session Summaries

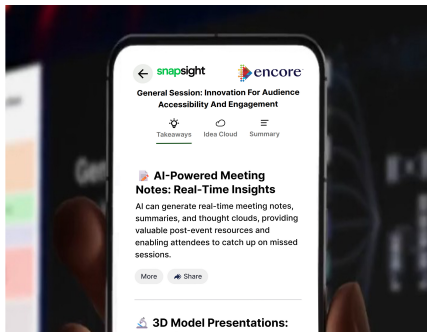

Turning Talks into Takeaways

Generate powerful session recaps and extend the reach and impact of your conference content with Snapsight. This AI-driven solution analyzes live speech and transforms it into idea clouds, key takeaways and transcripts. Insights are accessible to participants via QR code or link, or can be displayed on in-room screens.

Snapsight maximizes the meeting experience by empowering participants to stay present and capture key insights, while helping planners save time and elevate event impact with fluid content capture and post-event delivery.

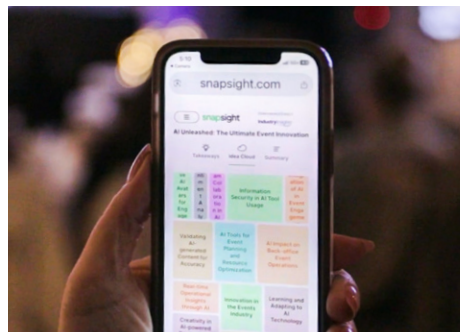

When you partner with Encore, we make event technology easy to utilize. Our onsite teams deliver hands-on exceptional service with smooth set up and audio capture for accurate and precise meeting summarization.

We'll take care of the details so you can do what you do best: make a lasting impression—and demonstrable ROI—for your key meeting stakeholders.

Smarter Summaries

- Instantly capture key points and action items with AI-powered summaries
- Increase attention and focus by eliminating the need for notetaking
- Upload custom industry-specific glossaries to improve transcription and insights accuracy

Idea Clouds

- Highlight top themes with dynamic word clouds
- See key ideas and big topics at a glance
- Quickly identify what matters most—even from sessions you couldn't attend

Simple Integration

- View insights via QR code on personal devices or in-room displays
- Conveniently integrates with your existing mic and AV setup with ease
- Overcome language barriers with support for 40+ languages
