

Understanding Audio: SPEAKERS

Your audience deserves to hear every word and feel every beat.
Let us help you select the perfect speakers to deliver exceptional sound quality that enhances your event's impact.

POINT SOURCE SPEAKERS

A single speaker box on a stand spreading sound evenly in all directions, ideal for smaller spaces.

COLLINEAR ARRAY

All-in-one portable sound system with a long-lasting battery for high-quality audio in medium to large spaces.

ARRAY SPEAKERS

Speakers that are stacked above one another, providing a uniform coverage pattern over a large event space.

DELAY SPEAKER

Speakers that are necessary for deep ballrooms that increase audio coverage and help eliminate potential feedback issues & loud levels for attendees in front row.

STAGE MONITOR

Speakers placed on or near a stage so that a presenter is able to hear themselves without distraction, as well as hear audience questions.

SUBWOOFER

A large 15" to 18" loudspeaker designed to reproduce very low sound frequencies.
