

Pneumatic Belt Sanders

Get the job done – even in hard-to-reach places

Mirka Pneumatic Belt Sanders excel in metal grinding for professional automotive, marine, and industrial uses.

Along with grinding applications such as spot weld removal and the sanding of weld joints, the PBS are ideal for rust, paint, and adhesive removal and for preparing surfaces for gluing and riveting. Made from lightweight, high-tech materials that provide outstanding power and durability, these ergonomic compressed air-powered grinding tools work especially well with Mirka's line of ceramic Mini File Belts.

KEY FEATURES:

- Pneumatic power for fast spot weld removal
- Speed regulator on top of tool for effortless adjustment
- Easily reset angle to get to hard-to-reach places quickly
- Hex key stores in the handle for quick angle adjustment
- Safety cover throws debris away from operator
- Accessible tension mechanism makes belts easy to change
- Comfortable rubber-coated handle doesn't get cold
- Low noise level for daily use

APPLICATIONS:

-  **Automotive Refinishing**
-  **Industrial**
-  **Marine Industry**
-  **Transportation**
