Mirka® POLAROS RP 600X

Rotary Polishing Redefined: Power plus Performance

The Mirka® POLAROS RP 600X is a high-performance tool engineered to elevate professional polishing. With ergonomic excellence, advanced features, intelligent speed control, and quiet operation, it redefines the rotary polishing experience.

- Low, compact profile enables a firm grip, improved control, and greater comfort
- Light weight (3.86 lbs.) for effortless operation
- Multiple operating modes adapt to the job at hand
- Innovative speed control creates an easy, intuitive experience
- High-Performance 750 W brushless motor
- Soft backing pad included

Mirka® POLAROS RP 600X

The POLAROS RP 600X features a gearbox-free direct drive that significantly reduces noise levels, internal heat, and mechanical wear, resulting in longer service life and lower maintenance needs.

Built for precision and control, POLAROS features smart functions that make polishing cleaner, safer, and easier. With its sleek, low-profile design and robust 750 W brushless motor, POLAROS is well-suited for automotive, marine, and industrial applications.

Part Number	Description	Size	Cord	RPM	Pad Face	Weight	Watts	Noise	Vib m/s ²
MRP60011CAUS	POLAROS RP 600X Rotary Polisher with Case	6"	34"	700-2500	Grip, Soft	3.8 lbs	750	58 dB	1.1
MRP6001100US	POLAROS RP 600X Rotary Polisher	6"	14"	700-2500	Grip, Soft	3.8 lbs	750	58 dB	1.1

Applications:

Automotive Refinishing

Woodworking

Marine Industry

Composite

Quiet Strength

Despite its powerful 750 W motor, the POLAROS keeps things quiet. With a maximum noise level under 60 dB, it delivers high performance without compromising operator comfort or safety, even during extended use.

Polarshine® Compounds & Pads

Mirka's professional polishing products restore color and shine to faded surfaces while removing orange peel, scratches, and other imperfections. Polarshine® water-based, silicone-free compounds are cost-effective, safe, and easy to use.

Intelligent Speed Control

- **Ramp Up** gently increases speed as pressure is applied – minimizing splash and keeping your workspace cleaner
- **Ramp Down** detects excess pressure and automatically lowers the rpm to prevent surface damage or tool strain.

Both features are easily activated with two buttons for added convenience.
