

MIRKA

Professional dust extractor with HEPA Filter completes the dust-free experience

When you're sanding with professional tools and high-class abrasives you need dust extraction that is up to par. Mirka's 1230 dust extractor is that and more: equipped with a high-performance 1200 W motor and a 1-stage turbine that creates 250 mbar suction with an airflow of 4500 l/min.

The Mirka DE 1230 HEPA PC dust extractors have an auto-start function, which means not just less noise but an overall longer lifetime for the dust extractor. A simple push of a button is all that is needed to clean the filter. If it needs to be removed, the filter is easy to reach through a separate opening in the back. The HEPA filter is easy to install.

Technical specifications	Dust Extractor 1230 HEPA
Voltage mains supply	110 – 120 V ~
Mains frequency	60 Hz
Power input	1200 W
Volume flow air	4500 l/min
Vacuum	250 mbar
Noise level, LpA	60 dBA
Container volume	8 Gal. (30 l)
Dimension W x D x H	15.25" x 22.25" x 22.25"
Weight	32 lbs. (14.5 kg)

**Dust Extractor

Technical features Mirka® Dust Extractor 1230 HEPA PC

Easily accessible flat filter
Filter can easily be reached through an opening in the back.

High volume container
30 liters for applications where a lot of material is extracted.

Large wheels
Easy maneuverability on uneven surfaces.

High performance motor and turbine
1200 W motor and 1-stage turbine creates 250 mbar pressure and 4500 l/min airflow.

Push & Clean Filter Cleaning
Easy way to clean the filter for longer life time and better performance.

HEPA Filtration
Proven performance for higher user protection.

Hose storage
The hose is always ready for use.

Air intake filter
Longer lifetime of motor.

AutoStart function
Dust extractor runs only when the power tool is running.

Hose inlet plug
Eliminates the risk of dust leaking out during transportation.
