

Quick Disconnect Pads

Long-Lasting, quick-change pads

Thick, double-sided pads and a durable adapter for a smooth refinishing process.

Use the Quick Disconnect Adapter and our thick, double-sided pads on any rotary polisher with a 5/8" thread. The convenient QD adapter allows you to easily attach or remove a pad in seconds. During operation, the adapter provides a secure, perfectly balanced connection to the polisher. The pads are designed to excel at a specific step in the refinishing process. Wool and waffled foam hold Polarshine® polishing compound for outstanding results without slinging.

KEY FEATURES:

- Large pads for efficient coverage
- Premium wool and foam pads for a consistent cut
- Adapter holds up in heat generated by rotary polishers
- Stable, centered pads glide across work area
- Textured pads hold polishing compound and help keep surface cool

Quick Disconnect Pads + Polarshine®

For perfect polishing, start with the suggested combinations below to find the balance of pads and polish that is most effective for the work at hand.

More aggressive pads like the Twisted Wool and Orange Waffle are often paired with higher numbered polishing compounds such as Polarshine® 35 and even 45 in some Marine applications.

Next, the scratch removal and correction steps can use the White Waffle pad along with a medium compound such as Polarshine® 20.

Lastly, Black Waffle pads and Polarshine® 5 are suitable for scratch and swirl removal and polishing.

Various combinations can be found to increase efficiency and effectiveness in paint finishing work.
