Multi-Tiered System of Supports

RethinkEd's all-in-one platform allows educators to learn about MTSS concepts, develop academic, behavior, and social-emotional learning (SEL) intervention plans, provide meaningful evidence-based interventions, and analyze the effectiveness of their entire MTSS framework.

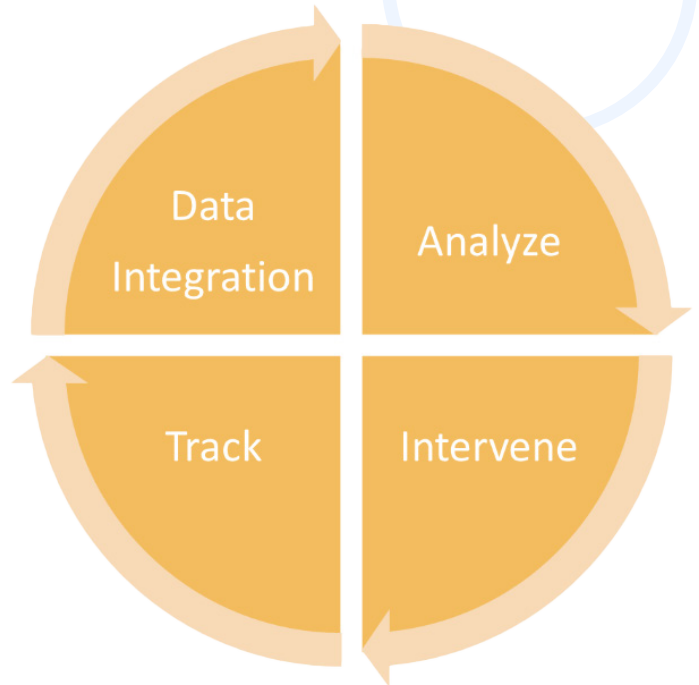

Through integrated academic, behavior, and social and emotional frameworks, data, and practices, educators can systematically provide a full range of support to all students, using an efficient approach to service delivery with less duplicative efforts on the part of the staff.
