FIVE ALL NEW HIGH SCHOOL COURSES

We are excited to share five
NEW High School courses
providing more resources in
our K-12 curriculum.

Courses Include:

- unit guides
- lesson plans
- online & offline extension activities

Topic assessments and interactive activities make it easy to assess, introduce, and generalize core concepts with unit summative assessments to check for mastery with different depths of knowledge.

FINANCIAL LITERACY

Learning the knowledge and skills to make sound, informed financial decisions, students will learn about how to plan and lead financially secure lives.

ENGLISH IV

Focusing on 12th grade ELA-R/W standards, students discover Old English and Medieval Literature to modern-day works and media outlets, applying skills for personal reflection, creative writing, and hands-on experiences with real-world applications.

US GOVERNMENT

Targeting fundamental constitutional principles; the organization of government at the federal, state, and local level; the rights and responsibilities of citizenship; and the policy-making process.

ECONOMICS

Explore microeconomics and macroeconomics, the laws of supply and demand, economic policies, personal finance, and economic globalization.

PHYSICAL SCIENCE

Introduction to the study of the physical world. Students will explore the foundations of chemistry and physics studying the relationship between matter and energy.
