

RethinkEd

Behavior Training Series

70% of teachers report a recent increase in disruptive behavior in the classroom*, but fewer than 33% of teachers are trained to effectively manage behaviors**.

All students need behavior support to optimize learning and well-being. Fostering positive behaviors, decreasing behaviors that interfere with learning and maximizing both student and educator success requires a holistic approach.

It requires:

- Understanding factors that impact student and adult behavior
- Creating a positive classroom and school environment
- Teaching students behavior skills that promote their success
- Using effective classroom management strategies

RethinkEd Behavior Training Series

Created by educators, psychologists and behavior specialists, our evidence-based training is designed to help educators and staff understand why students may be engaging in behaviors that interfere with learning, what to do to prevent those behaviors from occurring, and how to increase positive behaviors and decrease inappropriate ones.

- Improve academic performance
- Increase time spent on meaningful instruction
- Foster sense of safety and well-being

Our Training Activities Include:

Learn

- Interactive modules that promote active learning with embedded checks for comprehension.

Reflect and Connect

- Activities that foster self-awareness, skill development, and action including reflection and discussion questions, and goal setting for success.

Practice

- Activities that support practical application of evidence-based strategies.

Dive Deeper

- Activities that enhance implementation and collaboration.
