

PRODUCT SEARCH & CROSS

FINDING, CROSSING, AND CONFIGURING PRODUCTS - MADE EASY!

Frustrated with tight timelines and competitive pressures? Looking for a tool that gives immediate results? Lighting moves lightning fast, and Eiko offers a search tool that is just as fast.

The **EiKO Product Search Tool** is designed to quickly, easily, and accurately search for OR cross a specified fixture to the Eiko product line.

It's designed with this task in mind, and is therefore significantly more precise and productive than a mere web search.

Using this search capability will save the user time, and saving time saves money – but more importantly, it *makes* money! Cut the time you spend finding, matching, and crossing products in half, and spend more time building relationships with customers and increasing bottom line sales.

Be the first to offer what the customer wants and needs. Win more business, increase sales.

EIKO DEFINES EASY.
