

# TUBE READY WRAP

TRW

The Tube Ready Wrap is designed for maximum flexibility, pre-wired for double ended line voltage LED T8 tubes (Type B) and external driver double ended LED T8 tubes (Type C). These fixtures, coupled with Eiko's LED retrofit tubes, provide the end-user with low costs, ease of maintenance, energy savings, and low installation times.

#### Specifications:

- Available in 2' and 4' lengths
- Pre-wired for bypass/line voltage double-ended LED T8 tubes
- White finish
- Galvanized sheet steel body
