PORTABLE SANITARY STORAGE SYSTEM

Optimum Cleaning and Sanitary Storage

- Cleaning solutions, dust and dirt, insects, rodents and employee fingers cannot contaminate glasses or dinnerware from the sides.
- Clean glassware once in this entirely closed system and eliminate the need for expensive plastic wrap or vinyl covers.
- Rewashing is eliminated which reduces the cost of labor, water, chemical expenses, utilities, and setup time.
- Less rewashing and handling reduces breakage and replacement costs.

CLOSED WALLS GUARANTEE GLASSES STAY CLEAN UNTIL THEY ARE NEEDED AGAIN

Thoroughly Clean, Completely Dry

- Open walls increase operational cost from rewashing glasses, increase cost of water, chemicals, utilities, labor, and replacement cost of glassware.
- Ensures water and chemicals stay inside and circulate for thorough cleaning.
- Customers are served clean dishes and sparkling glassware every time.

EASY HANDLING AND SAFE STACKING

Easy to Handle and Safe to Stack

- When picking up Camracks, employees' fingers cannot go through closed walls and break fragile glassware, reducing breakage, risk of injury, and cross contamination.
- Camracks interstack with racks from major dishrack manufacturers.
- Easy-to-grip handles on all four sides offer comfortable, safe ergonomic handling and lifting.
- Smooth sides and rounded corners reduce risk of injury and improves stacking & handling.
- Smooth top edge facilitates easy stacking.

INVENTORY CONTROL

Color Code Inventory Management System

Cambro also offers hot stamping and a variety of colors for base racks to quickly identify contents of the racks for fast inventory management.

- **Color Coding Base Racks**
Save time and labor with the base rack color system. This color coding option will help employees quickly distinguish between a stack of water glasses or wine glasses at a quick glance. With 10 base colors and two extender colors, there are more than 20 color coding options.
- **Hot Stamping Options**
One color hot stamping tells employees what type of glassware is in the Camrack with a simple image or description. Choose among 30 standard hot stamp symbols and/or descriptions. Logos can also be added to endorse branding.

For more information about Cambro products, contact your Distributor, Cambro Sales Representative or the Cambro Customer Service Department.

Versa Dish Caddies™

Offers secure, high capacity storage to protect both square and round plates. Five column design has a 20% greater plate capacity than most comparable dish caddies.

S-Series Adjustable Dish Caddy

Store one size dish or a combination of different sizes in a single caddy. Features easy-to-adjust column tower.

Utility Cart

All-purpose utility cart holds up to 180 KG. Each shelf holds a full-size dish rack or two standard bus boxes.

Cambro Camrack System saves time, money and improves operational efficiency.

TRUST CAMBRO:

Camracks have been circulating in hotels, restaurants and catering businesses around the world for over ten years, saving time, money and resources. Operators know that Camracks will keep their glassware as well as their customers safe. With a wide variety of compartment options, the complete Camrack 3-in-1 system provides a fully-enclosed, portable sanitary storage unit. Eliminate the need to rewash glassware or to purchase plastic wrap. Camracks offer a sanitary, economical and environmentally friendly option that will continue to show its return on investment wash after wash. Contact your local rep for a Free Return On Investment quotation and future savings.

Camrack® Cover

- Create a self-contained, portable sanitary storage system.
- Fits any height or stack of racks.
- Eliminate cross contamination and rewashing from plastic wrap or vinyl covers.
- Keeps contamination, insects and rodents out!

Camdollies®

- Reduce employee lifting and carrying, reducing possible injury and breakage.
- Made of extremely durable plastic that will not dent, crack, rust or corrode.
- Heavy-duty casters maneuver easily over all types of terrain.
