

# The Measuring Cup that Can Stand the Heat

Withstands temperatures  
from -40° to 190°C.

- ✓ Safe for microwave, oven, cooler or freezer.
- ✓ 75% lighter than same size glass measuring cup.
- ✓ Reusable Splatter-Proof Cover is self-venting and reduces the need for plastic wrap.
- ✓ Plastic material won't bend or dent like metal measuring cups, and provides better visibility.

# High Heat Measuring Cups & Cover

Cambro's new High Heat Measuring Cup is the first of its kind in foodservice. Made from high heat, food-grade material, these Measuring Cups will not crack or shatter during regular use. The optional cover is self-venting and designed to prevent splatters and spills that can occur during heating, leaving the inside of the microwave or oven clean.

Universal Splatter-Proof Cover (sold separately) is self-venting and protects against hot spills and splashes.

**NOTE:** Cover must be removed prior to pouring hot liquid contents.

Withstands temperatures from -40° to 190°C.

Integrated handle will not break off and stays cool to the touch.

**BPA FREE** Made from BPA-free, heat resistant plastic.

Features both Metric and American Standard graduation marks.

## High Heat Measuring Cups & Cover

CODE	200MCH	400MCH	MCCH
