

Add Wow to Your Welcome

Make an unforgettable first impression with a Welcome Wall. Greet and showcase your event's participants in a striking way, build connections and create lasting impact with this unique visual experience using event technology you already have in place. This exclusive, high-visibility engagement solution displays participants' headshots on a large-format LED wall or large format display once they've scanned their badge's QR code.

A memorable way to add surprise and delight to your event

Event personalization: Capture and create “cool” at your event while encouraging selfies and shareable social media moments

Encourage networking: Increase guest visibility and offer opportunities to connect with others in attendance

Visual impact in high-traffic areas: Photos appear on screen in real time against pre-planned, customized background images, logos and individual card design produced by our MediaLab Creative Services team

Ideal events for Welcome Wall:

Conferences and conventions, leadership summits, general sessions, sales meetings and incentive trips, awards ceremonies and galas, client appreciation events, product launches, employee events

Works best with:

- Any type of screen: LED wall, large format display, projection, LED banner, digital or custom display
- Encore RSVP + Badging or other web-based registration tool
- Badge scanner: use an iPad or other device
- MediaLab Creative Services: customize the branding of the display
