

From Registration to Revelation

Redefine Event Registration with Bizzabo

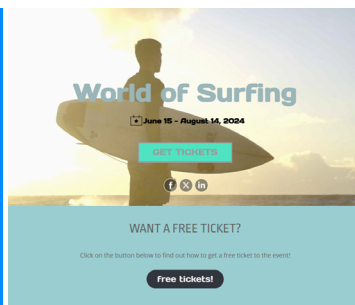

In an ever-evolving event landscape, planners seek innovative tools that grow with their demands. That's why Encore has proudly partnered with Bizzabo to offer a holistic and user-friendly registration tool that fits their adaptive needs.

Combining flexibility and scalability into one powerful platform, Bizzabo supports a wide range of registration solutions: from simple social registrations to sophisticated sign-up experiences, this customizable registration platform delivers a seamless and streamlined attendee experience, all while providing you with the data to keep refining your strategy.

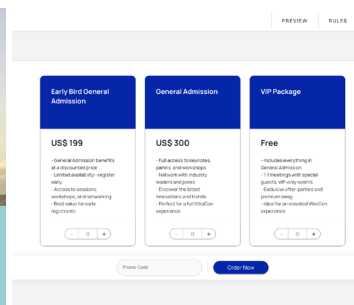

Tailored RSVPs

Customize registration flow with ease using advanced tools like custom fields, conditional logic, promo codes, and ticket visibility settings — delivering a personalized experience for every attendee.

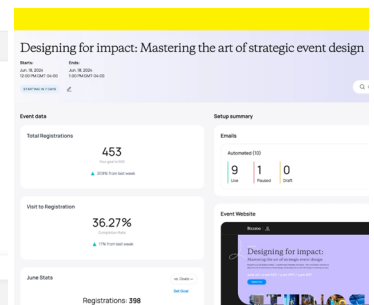

Brand Integration

Maintain brand consistency with fully customizable registration forms. Easily embed registration widgets or use pop-out modals that integrate smoothly into your existing website.

Flexible Payment

Accept payments instantly or via invoicing in multiple global currencies. (Note: Requires integration of clients own payment gateway or processor account, such as Stripe, Payflow Pro, etc.).

Real-Time Insights

Gain immediate visibility into key performance metrics like registration trends and session engagement, allowing you to seamlessly adapt your strategy — whether that means promoting workshops, identifying trending topics early, or reallocating rooms for high-demand sessions.

Additional Features

Custom Email Campaigns | Advanced Agenda Builder | Built-In Networking Tools | Exhibitor & Sponsorship Opportunities
