

AI-powered Captioning Services

Extend the reach of your event

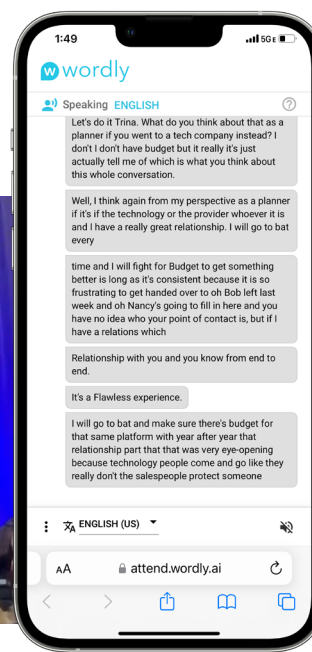

Whether you're looking to increase focus, understanding, or accessibility, Encore has a solution for you. With a marked increase in the use of captions and subtitles when watching videos, especially among Gen Z viewers, the use of captions have become a normalized practice not only for accessibility purposes, but also as an increasing viewer preference.

Benefits of AI Captioning services:

- **Accessibility:** Near-simultaneous closed-captioning is available in over 50 different languages.
- **Convenience:** Captions and transcriptions can be displayed on personal devices, screens and event apps.
- **Extended Reach:** Event captions can be shared with participants post-event or repurposed into marketing or educational content.
- **Customization:** Train our AI-powered engine to recognize terms and acronyms unique to your event or industry.
- **Affordability:** Best option for events on a budget.

We can provide:

- AI text transcription services
- AI-generated side-stage captioning displays
- Integration with event apps and platforms, including Chime Live®
- End-to-end event technology support and onsite troubleshooting.
