

Capture. Summarize. Share.

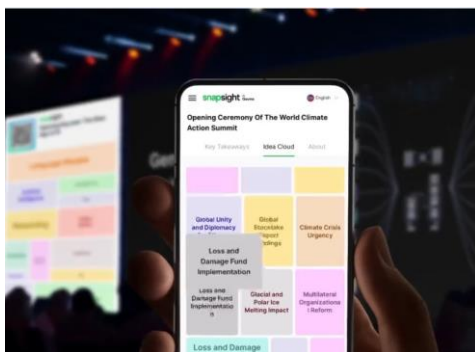

Snapsight: Real-Time AI Event Summaries

Snapsight captures live speech from your event and instantly transforms it into AI-powered summaries, idea clouds, and key takeaways in real time. Insights are accessible to attendees via QR code or link, or can be displayed on in-room screens. Snapsight helps planners and attendees get more out of every moment, whether for a small meeting or a multi-track conference.

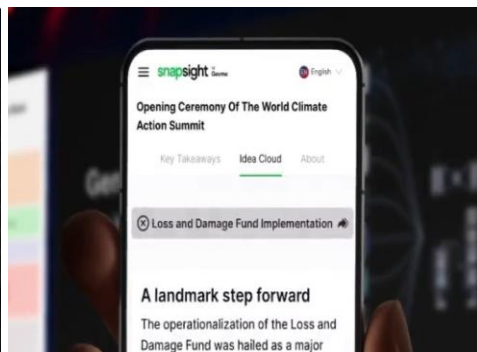

Smarter Summaries

- Instantly capture key points and action items with AI-powered summaries
- Eliminate note-taking and stay focused on the conversation
- Easily create event wrap-ups, follow-ups, and content from live sessions

Visualized Insights

- Highlight top themes with dynamic word clouds
- See key ideas and big topics at a glance
- Quickly identify what matters most from every session

View Anywhere

- View insights via QR code, personal device, or in-room screens
- Seamlessly integrates with Encore event technology setups using minimal equipment
- Enhance the attendee experience with real-time, accessible content
